

The
Winchester
Tile
Company®

HAND CRAFTED ENGLISH TILES

As England's leading producer of hand
crafted tiles, we continue to produce our
tiles in Devon's historic city of Exeter.

The art of making tiles

Everything we produce is unique and the culmination
of the combined experience of the highly skilled artists,
designers and crafts people who make up our team.

In the beginning our flat tiles start out as 'bisques', blank
canvases bearing nothing but the Winchester name
indented on the undecorated flip side. It's what happens
next that dictates the end result: the various manufacturing
processes of firing temperatures and frequency; different
glazes and how they react to heat and other processes;
hand painting and finishing – the alchemy of tile making
at its best.

One tile company, three distinct Collections

Turn the pages to find inspiration from our three different
Collections: Residence, rustic and very stylish; timeless
Artisan, with its mellow tones inspired by nature and
clever detailing and pretty decoratives; and the charm
of Classic, which lies in its wide choice of co-ordinating
colours, mouldings and whimsical designs.

CLASSIC

RESIDENCE

A collection of beautifully crafted,
hand finished tiles

A rustic clay base means that the tiles and mouldings in the Residence collection have undulating surfaces and uneven edges, contributing towards a style that is undoubtedly at home in kitchens, dining areas, utility rooms, bathrooms and showers, cloakrooms and conservatories.

The Residence collection consists of:

Cosmopolitan - A selection of tile formats with a distinctive glossy glaze, and colours ranging from muted white to intense inky blue.

Metropolitan - Tiles and their mouldings in a unique lustrous finish, which glistens with a pearl-like sheen.

Arcadian - Muted chalky colours in delicately textured crackle glaze which gives a softly aged look.

Foundry Metallics - Tiles in four stunning metallic finishes and five different sizes including square and brick formats.

Chateaux - Beautifully decorated tiles in rich colours and textures.

Decorated Tiles - Delicate and charming illustrations, all hand decorated, to add an extra touch of style to your room.

Chateaux decorated tiles

Dune, Tern, Mink, Birch field tiles

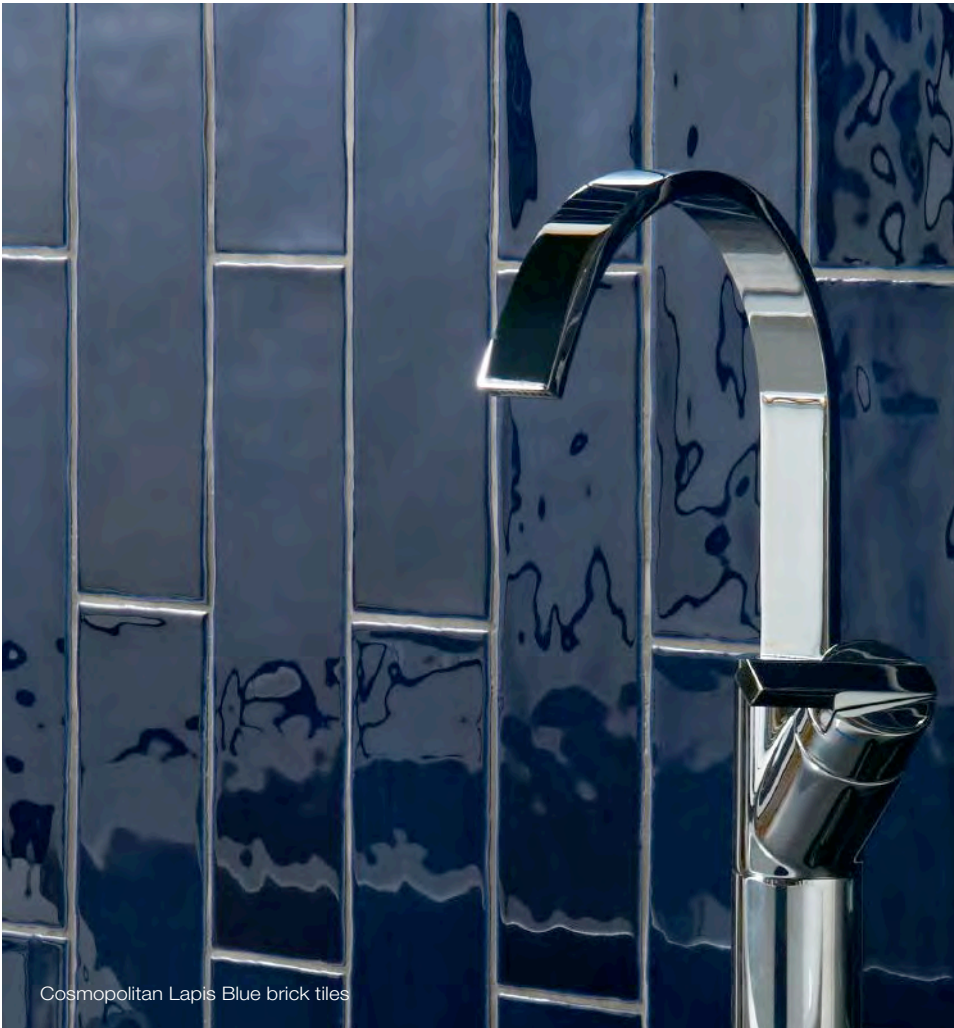

Herbs & Spices

Metropolitan Chalk and Hibiscus field tiles

Foundry Metallics

Cosmopolitan Lapis Blue brick tiles

There's plenty to choose from in the Cosmopolitan range of glossy tiles and mouldings: field tiles, half tiles, two sizes of brick and two co-ordinating mouldings.

The palette of 24 colours for field tiles ranges from a bright white through to a dark, moody grey, giving you plenty of choice for both traditional and contemporary interiors. Turn the page for the rest of the colour options.

Right: Papyrus field tiles with Mint half tiles and Torus Mouldings

Below: Mere field tiles

Bottom right: Papyrus field tiles

Musk and Rioja field tiles

These stronger shades can add a dramatic edge to your walls. Cosmopolitan's high gloss finish and intense colours on the undulating, rustic tile bases result in deeply pooled areas and interesting reflective effects.

 Left: Mint half tiles and Torus mouldings with Papyrus field tiles

HALF TILES

Use half tiles on their own or combine with field tiles to add interest. Adding a Torus moulding will finish off a row of tiles or separate different colours and shapes from each other. A skirting effect (shown right) can be created by placing a moulding above a field tile.

RESIDENCE
Arcadian

A delicately textured crackle glaze in muted chalky colours gives these tiles a softly aged look

Part of the charm of tiled surfaces is how they sometimes craze and crackle over time. With Arcadian tiles this crackle has been built in, giving you a lovely, antiqued effect. Enhance the aged look by using different coloured grouts, as shown left.

The Arcadian range is available in 12 crackle glazes* in the following formats: field tile, half tile, two bricks, Torus and Ogee mouldings.

FIELD TILES

Left: Porcelain field tiles with Porcelain Torus mouldings
Top: Close up of Porcelain field tiles to show the crackle
Middle: Moselle field tiles.
Bottom: Close up of crackle

Porcelain W.UPO2005

(5 1/8" x 5 1/8" x 3/8")

Birch W.UBI2005
130 x 130 x 10mm
(5 1/8" x 5 1/8" x 3/8")

Tern W.UTE2005
130 x 130 x 10mm
(5 1/8" x 5 1/8" x 3/8")

Estuary W.UES2005
130 x 130 x 10mm
(5 1/8" x 5 1/8" x 3/8")

Sedge W.USD2005
130 x 130 x 10mm
(5 1/8" x 5 1/8" x 3/8")

Moselle W.UMO2005
130 x 130 x 10mm
(5 1/8" x 5 1/8" x 3/8")

Teal* W.UTL2005
130 x 130 x 10mm
(5 1/8" x 5 1/8" x 3/8")

Danube W.UDA2005
130 x 130 x 10mm
(5 1/8" x 5 1/8" x 3/8")

* Copper based glaze – please see Important Information pages 109-119 for suitability and care.

† Please also see Important Information pages for more about Arcadian's inherent crackle feature for details about suitability and care.

HALF TILES

Porcelain W.UPO2025
130 x 63 x 10mm
(5 1/8" x 2 1/2" x 3/8")

Dune W.UDU2025
130 x 63 x 10mm
(5 1/8" x 2 1/2" x 3/8")

Birch W.UBI2025
130 x 63 x 10mm
(5 1/8" x 2 1/2" x 3/8")

Sedge W.USD2025
130 x 63 x 10mm
(5 1/8" x 2 1/2" x 3/8")

Moselle W.UMO2025
130 x 63 x 10mm
(5 1/8" x 2 1/2" x 3/8")

Danube W.UDA2025
130 x 63 x 10mm
(5 1/8" x 2 1/2" x 3/8")

The muted colours and crazed textures of Arcadian can add an air of faded opulence to your walls. You can intensify the aged crackle effect, too, by rubbing a slightly darker coloured grout onto the surface of the tiles.

See Important Information pages 109-119 for more about the inherent crackle feature.

RESIDENCE

Foundry Metallics

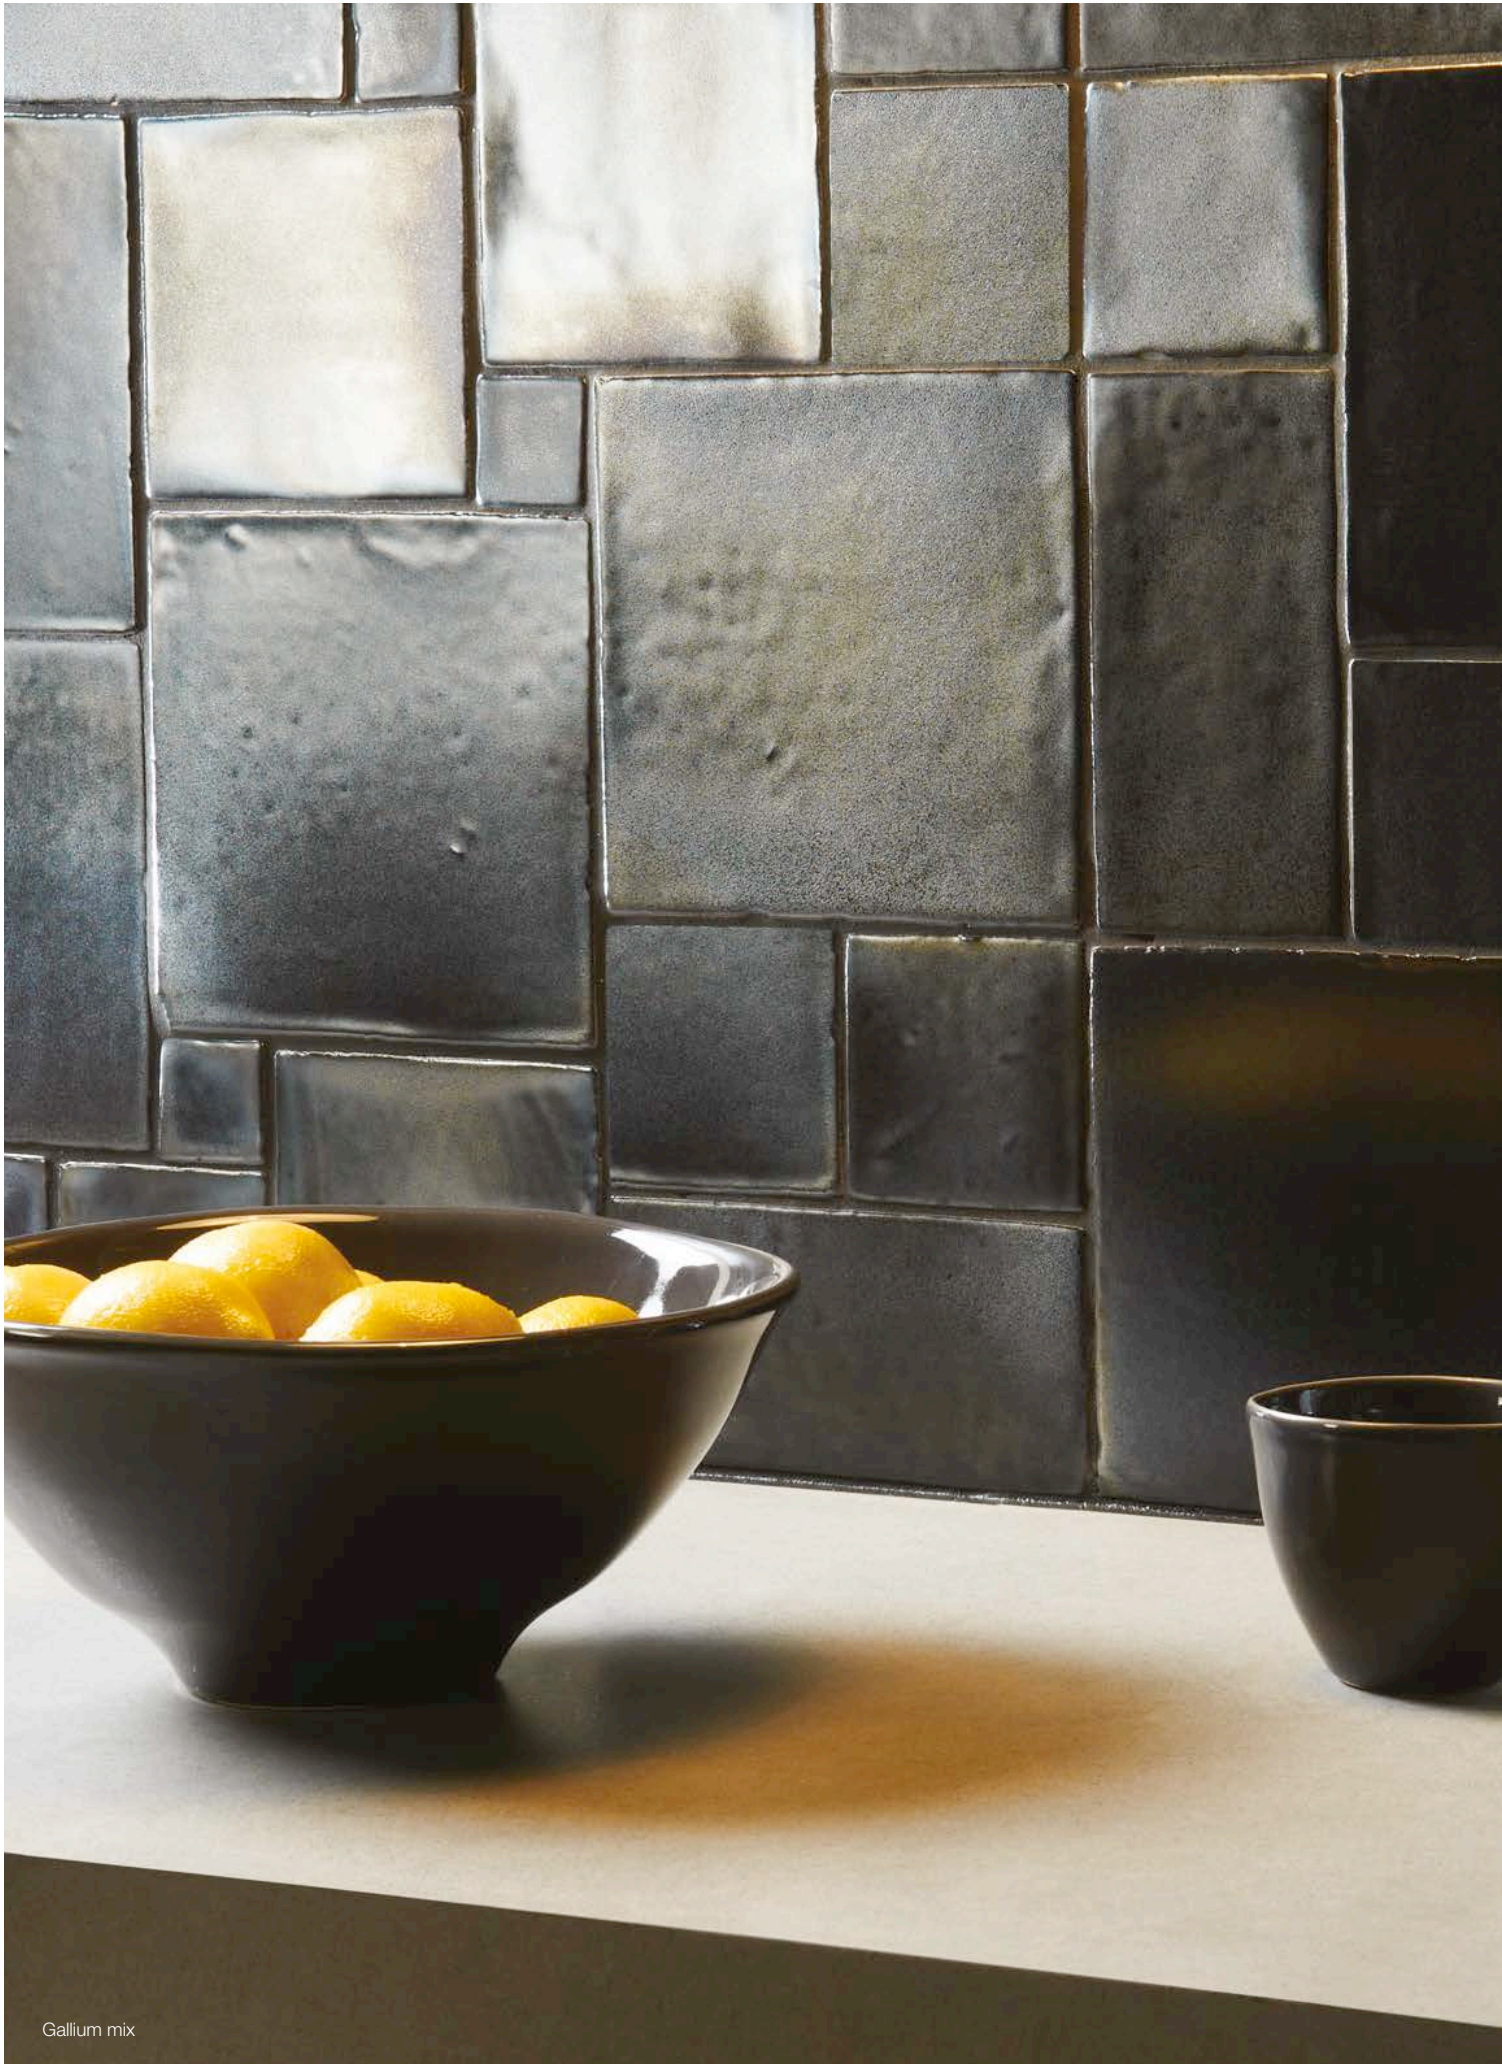

Stunning metallic effects and dramatic, glowing colours

Metallic glazes are used to create some amazing effects on these tiles, which are available in five sizes in each of the four colourways: Rose Gold, Roman Gold, Almandine (which is a rich and dark burgundy) and Gallium (a deep, inky grey). These give you plenty of opportunities to design some striking patterns for feature walls. It's worth noting that there will be considerable differences between every tile, particularly for the Roman Gold tiles, which may be rippled and uneven in surface texture and colour. Combined they look gorgeous (see right) and it also means your tiles will be truly unique!

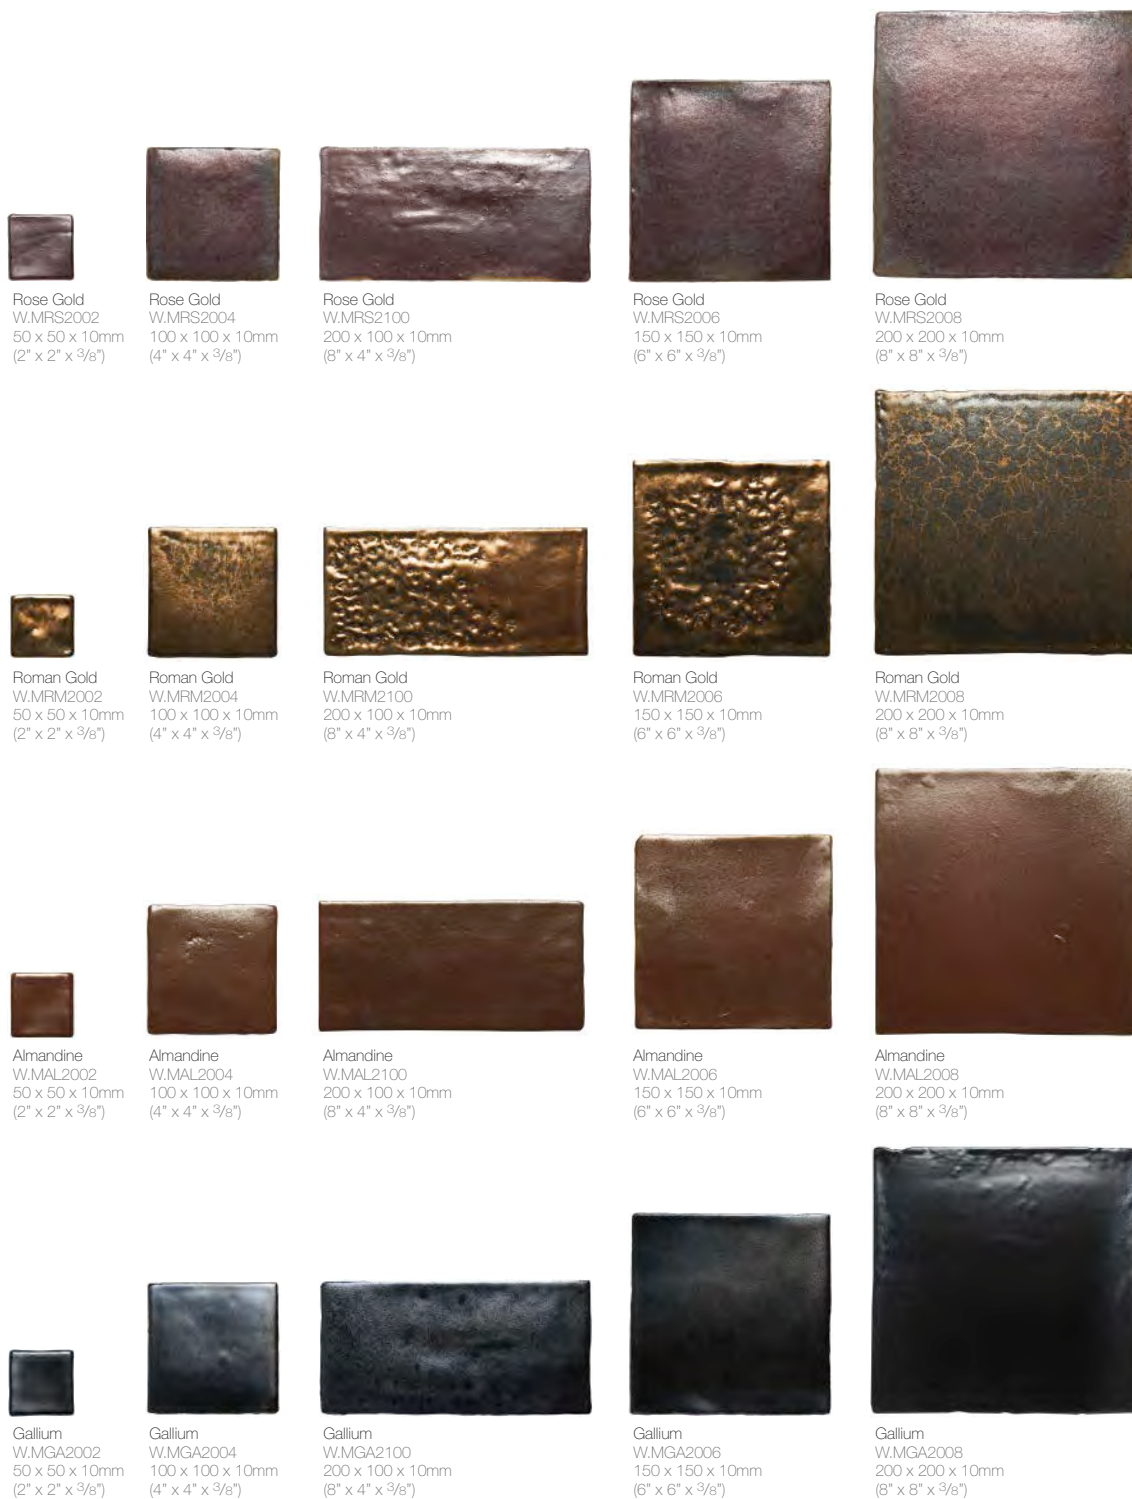

Above, left: Roman Gold mix
Top right: Rose Gold mix
Right: Gallium (50 x 50mm)

Gallium mix

Foundry Metallic tiles are dramatic and distinctive. The use of different lighting effects such as fire light, soft focus and spot lights will simply add to the drama. You can use one size or combine them to make up your own patterns, or turn to page 107 for some suggested pattern guides. Feel free to mix and match sizes and colours to create your own unique metallic masterpiece.

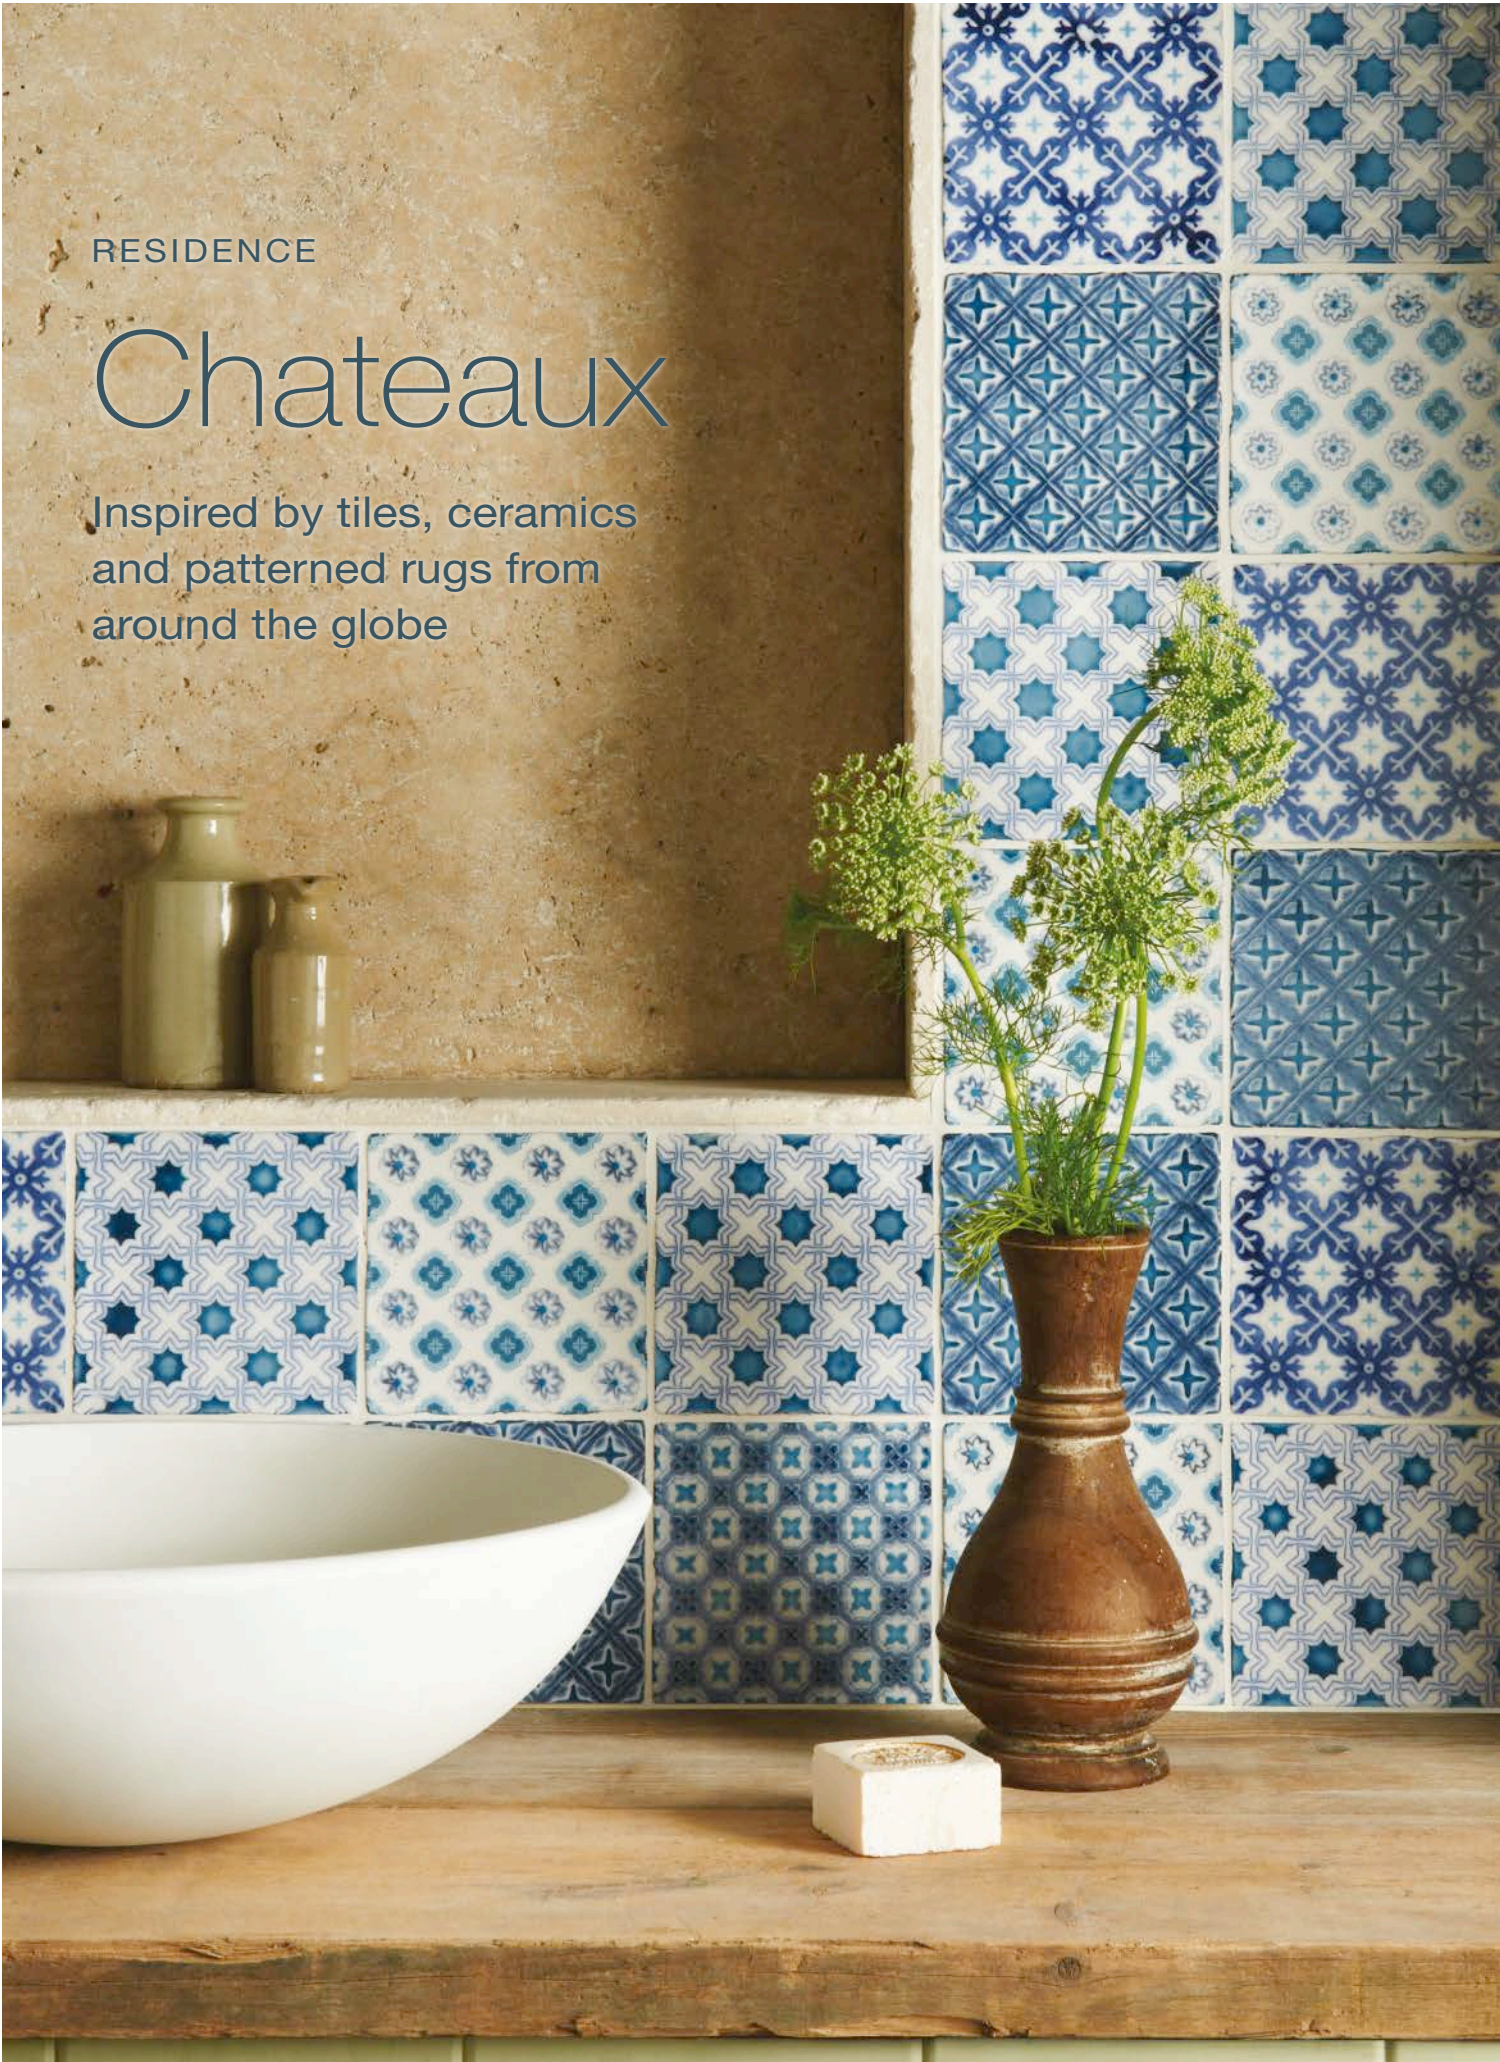

Please note that metallic tiles are made individually and may have distinct differences between them. They may not match each other or line up exactly if placed together, but the overall effect will be stunning. Please read the Important Information section on pages 109-119 for details about suitability and fixing. Dry areas only.

RESIDENCE

Chateaux

Inspired by tiles, ceramics
and patterned rugs from
around the globe

Main image: A mix of Villette, Merles, Behen, Bourron and Ormeaux all on Papyrus

Left: Merle on Truffle

Top right: A mix of Behen, Ormeaux, Bourron, Villette and Merles all on Truffle

Bottom: Ormeaux on Bastille, Amun and Lagoon

The patterns and colours in the Chateaux Collection were inspired by an eclectic range of artifacts and places: ceramics and tiles from ancient Persia and Morocco, kelim rugs from Turkey, tapestries from French castles and pottery from Andalusia.

If you look closely you will discover that every tile is slightly different. Intriguing random textured effects result from the deliberate use of glazes that 'react' on the surface. The combination of a rustic tile base and the reactive glazes produces glossy tiles that have noticeably textured surfaces.

Every tile is like a miniature work of art

Weave these patterns together to make a beautifully rich and textured feature – a dazzlingly simple way to add character and style to a wall. The Chateaux tiles shown below are different patterns in blue on either a Cosmopolitan Papyrus or Truffle background. They can be used to create stylish patchwork effects or placed individually as shown opposite, bottom right.

W.2604
130 x 130 x 10mm (5 1/8" x 5 1/8" x 3/8")

Linen Borders and Corners are available as Grey or Sepia on either a Papyrus or Palomino background. Use to add a finishing touch to frame the decorated tiles in this section.

Detail of Rioja and Chablis

Whether you prefer red or white, there's a wine type for all tastes here. These decorated half tiles are the perfect accompaniment to great food and good company. To set them off beautifully, there are Linen Frame border and corner tiles too – they can also be used with the other decorative tiles in this section to great effect.

Chablis, Merlot, Shiraz, Rioja, Chianti, Pinot Grigio, Linen borders and corners, all on Palomino background, with Cosmopolitan Palomino

RESIDENCE

Herbs & Spices

A pinch of spice and a handful of herbs to enhance your recipes and your walls

These wonderful ingredients provide dishes with depth, flavour and colour, but why stop there? Your walls will look striking with the addition of these tasteful tiles.

ARTISAN

Soft colours with a timeless appeal

Inspired by nature and hand crafted by our skilled artisans, this beautiful range of wall tiles and mouldings has a timeless appeal and will look beautiful in all settings, modern and traditional alike. The soft colours, named after the sleepy villages and historic market towns of England's Suffolk, gently wash over the tiles and mouldings. Tilt one of the tiles in the light and you'll see the subtle undulations in the surface and less than straight edges.

Tiles, decorative borders and insets evolve from the process of refining raw clay, pouring and pressing, moulding and shaping. Every piece is carefully inspected, skilfully finished, and left to dry. They are made ready for their first kiln-firing, then glazed and fired again.

Artisan consists of 12 gloss glaze colours and six cracked glazes in field tile, half tile and brick. The Crackle glazes will be a slightly different shade to the Gloss colours of the same name.

ARTISAN

Half Tiles

Half tiles and brick tiles (see the next page) are extremely versatile, especially in the Artisan colours and crackle options. Using a dark grout with a pale tile looks attractive and is a practical option for kitchens. Just make sure you test a small area before starting to grout your wall, to avoid any staining (see our Fixing Guide at www.winchestertiles.com for more help and guidance).

ARTISAN

Brick Tiles

There's something very pleasing about the shape of this brick tile: and although it looks right up to the minute, it does in fact have a long history. When installed in a brick bond pattern the horizontal lines create an illusion of width, so a wall or entire room can appear bigger. The Clarence moulding (see page 66) has been designed to co-ordinate with the brick, and it is available in the same 12 gloss and six crackle glazes.

DECORATIVE FIELD TILES

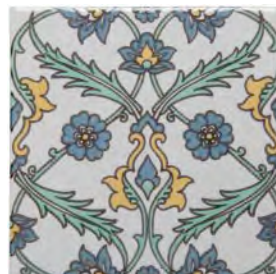

The inspiration for these beautiful designs came from around the Mediterranean. The intricate repeating patterns are reminiscent of traditional rug and carpet patterns, and rich colours will bring a burst of sunshine to your kitchen or bathroom.

Topkapi Blue W.CL1502
 150 x 150 x 10mm (6" x 6" x 3/8")

Topkapi Red W.CL1501
 150 x 150 x 10mm (6" x 6" x 3/8")

Topkapi Yellow W.CL1503
 150 x 150 x 10mm (6" x 6" x 3/8")

Kutahya W.CL1504
 150 x 150 x 10mm (6" x 6" x 3/8")

Pasha W.CL1500
 150 x 150 x 10mm (6" x 6" x 3/8")

Please see Important Information pages 109-119 for fixing guidance on repeating patterns

Please note, because of their size, these tiles are not in proportion to reference images of tiles in other sections.

Merci de noter qu'en raison de leur taille ces carreaux ne sont pas en proportion avec les autres images dans les autres sections.

Es ist zu merken, daß diese Fliesen in keinem Verhältniss zu der Abbildungen von Fliesen in anderer Ausschnitten stehen.

De tegels in deze afbeeldingen zijn niet afgebeeld in dezelfde schaal als de tegels afgebeeld in andere secties.

Внимание: приведенные в качестве справочных иллюстрации могут не соответствовать фотографиям плитки в других разделах.

CLASSIC COLLECTION

The charm of all things handmade, hand painted or hand finished, is that no two pieces are likely to be identical

There's a wealth of choice, whether you are decorating a kitchen, bathroom, cloakroom, hallway, garden room or utility area. Colours for field tiles, half tiles and mouldings range from Pure White to Black via a range of neutrals through to strong rich hues, all in a gloss finish.

Field tile sizes range from 105 x 105 x 10mm (4¹/₈" x 4¹/₈" x ³/₈") to 127 x 127 x 10mm (5" x 5" x ³/₈"), with half tiles 127 x 63 x 10mm (5" x 2¹/₂" x ³/₈"), with borders and mouldings to co-ordinate and enhance your selection. A special waterfall glazing technique is used on the gloss field tiles, which normally results in two fully glazed edges on each tile, eliminating the need for a special trim piece such as a bullnose.

Turn to the hand painted section for designs of classical English Delft, luscious fruit, and a myriad of charming flora and fauna to bring your walls to life.

CLASSIC

Half tiles

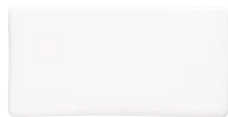

Versatile half tiles always look good in the traditional brick bond pattern, but you could experiment by applying them vertically or even in a herringbone pattern. Place them above a dado rail with field tiles beneath, in either a co-ordinating or contrasting colour for interest.

CLASSIC

English Delft

HAND PAINTED DELFT BOATS

Our love affair with Delft began in the 16th century when English artists transposed classic Dutch designs to English settings. Here, the sources of inspiration are original 16th century drawings, applied in cobalt blue on Delft opaque tin glaze.

CLASSIC

Hand Crafted Panels

Bring the rural idyll into your home with these lovely images and enjoy them for many years to come

Chicken Coop Colour on Off White 40 Tile Panel

CHICKEN COOP

Here's the next best thing if you would love to keep hens! This beautiful panel can be installed behind a range cooker or as a feature in its 40 tile entirety, made up of three Chickens and a Hedgerow. It is available in a hand finished, full colour panel of 127 x 127mm tiles.

You can also choose to have the Chickens and/or a Hedgerow in a single colour of either Grey on Pure White or Sepia on Off White.

Chicken Coop Colour on Off White 40 Tile Panel W.1708
Available as single chicken panels – as below, and single colours, see following pages.

HEDGEROW

You'll enjoy finding all the birds, butterflies, berries and flowers within this beautiful Hedgerow, which is available as a 22 tile panel (above) or as a 16 tile frieze (see page 89). Both versions come in full colour, Sepia on Off White and Grey on Pure White. The frieze can be repeated around a room as a border or as a stand alone in an alcove or above a shelf.

Hedgerow 22 Tile Panel Colour on Off White W.1712

Hedgerow 22 Tile Panel Sepia on Off White W.1726

Hedgerow 22 Tile Panel Grey on Pure White W.1740PW

Please note: you can adjust the grout gap between the tiles to suit the look you want to achieve. The grout gap in the photograph on page 86 and above is approximately 5mm.

ON THE FARM

A set of fine animal drawings in a naïve style reminiscent of 18th century farm cottages where simple images of homely livestock positively filled their frames. Used at random these tiles make a pleasing counterpoint to areas of field (plain colour) tiles.

These tiles are on an Off White background.

Connie Cow W.HP1550
105 x 105 x 10mm
(4 1/8" x 4 1/8" x 3/8")

Polly Pig W.HP1551

Lapis Blue 300 x 75mm brick tiles

How many tiles will you need?

Once you have decided on your tiles, calculate how many you will need by measuring the area to be tiled. Recommended grout gaps vary depending on personal taste and the look you wish to achieve, and also the uneven nature of the tile edge. Generally, the more rustic the tile base, the wider the grout gap.

De combien de carreaux aurez-vous besoin ?

Une fois que vous avez choisi vos carreaux, calculez la quantité dont vous aurez besoin en mesurant la surface à carreler. Les écarts de joint recommandés varient en fonction des goûts personnels et de l'apparence que vous souhaitez réaliser, mais aussi de l'irrégularité des bords des carreaux. En général, plus les carreaux sont rustiques, plus l'écart de joint sera grand.

Wie viele Fliesen brauchen Sie?

Wenn Sie sich für eine bestimmte Fliese entschieden haben, können Sie ausrechnen, wie viele Fliesen benötigt werden, indem Sie den zu verarbeitenden Bereich messen. Die empfohlenen Fugenabstände richten sich nach Ihrem persönlichem Geschmack und dem gewünschten Erscheinungsbild, werden aber auch durch die ungleichmäßigen Fliesenkanten bestimmt. Generell gilt: Um so rustikaler die Fliese, desto größer die Fuge.

Hoeveel tegels hebt u nodig?

Zodra u uw tegels hebt uitgekozen, kunt u berekenen hoeveel u er nodig hebt door het te betegelen oppervlak op te meten. De aanbevolen voegen zijn afhankelijk van persoonlijke smaak en het eindresultaat waarnaar u op zoek bent. Ook de oneffen aard van de tegeluiteinden spelen een rol. In het algemeen geldt dat hoe rustieker de tegels zijn, hoe breder de voegnaad is.

Сколько понадобится плиток?

Выбрав требуемую плитку, следует измерить необходимую площадь, чтобы подсчитать, сколько понадобится плиток. Рекомендуемое межплиточное расстояние зависит от личных предпочтений. Кроме того, следует учитывать неровность между краями плитки. В целом, чем более неровная основа плитки, тем шире межплиточное расстояние.

Please allow an extra 10% for cutting and wastage. Measurements above and quoted throughout are for the front face of the tile/moulding. Please note that the front face of Artisan field tiles and half tiles is marginally smaller than the back face, whereas the moulding and skirting pieces have the same dimension for both front and back facings. Work sizes for products in this brochure are as follows:

EN ISO 10545-2, EN14411:2016 Annex K, Length and Width
 N > 15 cm. = +/- 0.5% of the work size
 7 cm < N < 15 cm. = +/- 0.75 mm of the work size
 This does not apply to Winchester Artisan mouldings and Winchester Classic mouldings as these are site cast. In these cases every effort is made to target the work size.
 Recommended grout gaps are based on the following:
 Residence: 3-4mm, Classic: 3-6mm, Artisan: 2mm

The front face of the Artisan field tiles, half tiles, brick tiles and decorated tiles is marginally smaller than the back face, whereas the moulding and skirting pieces have the same dimension for both front and back facings. To ensure that tiles and mouldings are aligned when they are included in the same installation, we recommend using 1mm spacers when fixing field tiles, half tiles, brick tiles and decorated tiles, and 2mm spacers when fixing mouldings, trims and skirting pieces. The 1mm spacers must be pushed in so that they make contact with the back face edges of the tiles.

We always recommend that any tiling is carried out by an experienced professional tiler. For full tiling information, please refer to our Fixing Guide on www.winchestertiles.com.

Veuillez toujours ajouter 10 % pour tenir compte des découpes et déchets éventuels. Les mesures ci-dessous et les autres mesures citées ailleurs concernent la face avant des carreaux/moulures. Notez que la face avant des carreaux unis Artisan est légèrement plus étroite que leur dos, tandis que les dimensions des moulures et des plinthes restent les mêmes sur le devant comme au dos. Les dimensions et marges de tolérance pour les produits de cette brochure sont comme suit:

EN ISO 10545-2, EN14411:2016 Annex K, longueur et largeur
 N > 15 cm. = +/- 0.5% de la taille réelle
 7 cm < N < 15 cm. = +/- 0.75 mm de la taille réelle
 Ceci n'est pas applicable aux moulures de la gamme Winchester Artisan et Winchester Classic étant fabriquées avec un moule.
 Dans ces cas, tous les efforts sont fait pour respecter la taille réelle.
 Les écarts de joints recommandés se basent sur les mesures suivantes : Residence : 3-4 mm, Classic : 3-6 mm, Artisan : 2 mm

La face avant des carreaux unis, demi-carreaux, carreaux effet brique et carreaux décorés Artisan est légèrement plus étroite que leur dos, tandis que les dimensions des moulures et des plinthes restent les mêmes sur le devant comme au dos. Pour aligner correctement les carreaux et les moulures dans une même installation, nous vous recommandons d'utiliser des entretoises de 1 mm lorsque vous posez les carreaux unis, demi-carreaux, carreaux effet brique et carreaux décorés, et des entretoises de 2 mm lorsque vous posez les moulures, les lés et les plinthes. Les entretoises de 1 mm doivent être disposées de manière à toucher les bords du dos des carreaux.

Nous vous recommandons de toujours faire installer vos carreaux par un carreleur professionnel et expérimenté. Pour des informations complètes sur l'installation, reporter-vous à notre Guide d'installation sur www.winchestertiles.com.

Bitte planen Sie zusätzliche 10% für Verschnitt und Reststücke ein. Die obigen und andere in der Broschüre angegebenen Maße gelten für die Vorderseite von Fliese / Formstücken. Bitte beachten Sie, dass die Vorderseite der Artisan Grund- und Halbfliessen geringfügig kleiner als die Rückseite ist, während Formstücke und Sockelleisten die gleichen Dimensionen sowohl für Vorder- und Rückseite aufweisen. Herstellungsmaß für Produkte in dieser Broschüre sind wie folgt:

EN ISO 10545-2, EN14411:2016 Anhang K, Länge und Breite
 N > 15 cm. = +/- 0.5% des Herstellungsmaßes
 7 cm < N < 15 cm. = +/- 0.75 mm des Herstellungsmaßes
 Dies gilt nicht für Winchester Artisan Formstücken und Winchester Classic Formstücken, da sie geschichtete Produkten sind, wobei aber angestrebt wird, das Herstellungsmaß zu erzielen. Empfohlene Fugenabstände betragen auf:
 Residence: 3-4 mm, Classic: 3-6 mm, Artisan: 2 mm

Die Vorderseite der Artisan Grund-, Halb-, Ziegel- und Dekorfliesen ist geringfügig kleiner als die Rückseite, während Formstücke und Sockelleisten die gleichen Dimensionen sowohl für Vorder- und Rückseite aufweisen. Um sicherzustellen, dass Fliesen und Formteile korrekt ausgerichtet sind, empfehlen wir die Verwendung von 1 mm Fugenkeuzen beim Verlegen von Grund-, Halb-, Ziegel- und Dekorfliesen. Für Formstücke, Profile und Sockelleisten verwenden Sie bitte 2 mm Fugenkeuze. Die 1 mm Fugenkeuze müssen so eingedrückt werden, dass sie Kontakt mit den rücksseitigen Kanten der Fliesen haben.

Wir empfehlen stets, dass unsere Fliesen von einem erfahrenen und professionellen Fliesenleger verlegt werden. Für vollständige Informationen zur Verlegung beschriften Sie bitte unsere Verleganleitung unter www.winchestertiles.com.

Bestel 10% extra voor snijresten en afval. Bovenstaande en opgegeven metingen zijn altijd voor de voorkant van de tegel/het profiel. De voorkant van de veldtegels en de halve tegel van Artisan is enigszins kleiner dan de achterkant. De profiel- en randtegels hebben wel dezelfde afmetingen voor de voor- en achterzijde. De maattolerantie voor de producten in deze brochure zijn als volgt:

EN ISO 10545-2, EN14411:2016 Annex K, lengte en breedte
 N > 15 cm. = +/- 0.5% van de nominale maat
 7 cm < N < 15 cm. = +/- 0.75 mm van de nominale maat
 Deze maattolerantie geldt niet voor de Winchester Artisan stripjes en Winchester Classic stripjes, aangezien deze vormen gegoten zijn.
 In deze gevallen doen wij ons uiterste best om de nominale maat aan te houden.
 De aanbevolen voegen zijn gebaseerd op het volgende: Residence: 3 - 4 mm, Classic: 3 - 6 mm, Artisan: 2 mm

De voorkant van de veldtegels, de halve tegel, de bakstenen tegel en de siertegels van Artisan is enigszins kleiner dan de achterkant. De profiel- en randtegels hebben wel dezelfde afmetingen voor de voor- en achterzijde. Om ervoor te zorgen dat de tegels en de profieltegels op elkaar aansluiten als ze deel uitmaken van dezelfde installatie, raden we aan dat u afstandsstukken gebruikt van 1 mm bij het zetten van veldtegels, halve tegels, bakstenen tegels en siertegels, en afstandsstukken van 2 mm bij het zetten van profieltegels, lijsttegels en randtegels. De afstandsstukken van 1 mm moeten zodanig worden aangebracht dat ze in contact zijn met de uiteinden van de achterkant van de tegels.

We raden altijd aan dat tegels worden gelegd door een ervaren, professionele tegelzetter. Raadpleeg onze installatiegids op www.winchestertiles.com voor alle informatie.

Допуск на отходы должен составлять 10%. Размеры, указанные выше и приведенные в данной брошюре, предназначены только для передней поверхности плитки/лепнины. Просьба обратить внимание, что передняя поверхность облицовочной плитки и полуплитки коллекции Artisan незначительно меньше, чем задняя поверхность, при этом передняя и задняя поверхность лепнины и бордюров одинакова. Рабочие размеры продукции в этой брошюре следующие:

EN ISO 10545-2, EN14411:2016 Приложение К, Длина и Ширина
 N > 15 см. = +/- 0.5% от рабочего размера
 7 см < N < 15 см. = +/- 0.75 мм от рабочего размера
 Это не относится к Winchester Artisan и Winchester Classic молдингам так как эти молдинги отлитые. В этих случаях делается все возможное, чтобы достичь рабочий размер.
 Рекомендуемое межплиточное расстояние: Residence: 3-4 мм, Classic: 3-6 мм, Artisan: 2 мм

Передняя поверхность облицовочной плитки, полуплитки, черепичной и декоративной плитки незначительно меньше, чем задняя поверхность лепнины и бордюров одинакова. Чтобы выровнять плитку и бордюры, рекомендуем использовать 1-миллиметровые разделители при укладке облицовочной плитки, полуплитки, черепичной и декоративной плитки, и 2-миллиметровые разделители при укладке бордюров, каймы и краев. 1-миллиметровые разделители следует вдавить таким образом, чтобы они соприкасались с задней гранью плитки.

Настоятельно рекомендуем, чтобы укладка плитки производилась профессиональным плиточником. См. наше Руководство по укладке на сайте www.winchestertiles.com для получения полной информации.

IMPORTANT INFORMATION

Highly glazed ceramic tiles may craze with time and no guarantee can be given against this occurrence.

Winchester wall tiles are not suitable for floors or external use. They are suitable for interior walls only. We do not recommend that Winchester tiles are installed as work surfaces. If they are installed as work surfaces, they will show signs of wear and surface scratching. Some are not suitable for wet areas, see below.

Range	Product	External	Internal Walls	Wet areas showers / wetrooms / sink splashbacks	Special notes
Residence Cosmopolitan (gloss)	All (except Bastille, Lagoon, Tourmaline copper glazes)	×	✓	✓	
	Bastille, Lagoon, Tourmaline copper glazes	×	✓	×	Dry areas only*
	Agapanthus, Amun, Chestnut, Flint, Lagoon, Mint, Musk, Rioja, Truffle are subject to crazing	×	✓	✓	If crazed†, seal with impregnator if installed in wet areas. Not suitable for use near power showers
Residence Arcadian (crackle)	All (except Teal copper glaze)	×	✓	✓	Seal with impregnator if installed in wet areas†. Not suitable for use near power showers
	Teal copper glaze	×	✓	×	Dry areas only*
Residence Metropolitan (lustre)	All	×	✓	✓	
Residence Foundry Metallics	All Roman Gold (May be subject to efflorescence**)	×	✓	×	Dry areas only*
Residence Decoratives	All (except Ormeaux on Bastille/Lagoon copper glaze)	×	✓	✓	
	Ormeaux on Bastille/Lagoon copper glaze	×	✓	×	Dry areas only*
	Ormeaux/Villette/Behen/Bourron/Merles on Truffle and Ormeaux on Lagoon/Amun/Mint/Rioja/Chestnut are subject to crazing	×	✓	✓	If crazed†, seal with impregnator if installed in wet areas. Not suitable for use near power showers
Artisan Gloss	All	×	✓	✓	
Artisan Crackle	All	×	✓	✓	Seal with impregnator if installed in wet areas†. Not suitable for use near power showers
Artisan Decoratives	All	×	✓	✓	
Classic	All (except Soft Yellow, Marine Blue, Deep Turquoise, Emerald Green, Lime Green, Moonstone, Prussian Blue)	×	✓	✓	
	All are subject to crazing	×	✓	✓	If crazed†, seal with impregnator if installed in wet areas. Not suitable for use near power showers
	Deep Turquoise, Emerald Green, Lime Green, Jade, Marine Blue, Moonstone, Prussian Blue copper glazes	×	✓	×	Dry areas only*

*Residence: All Foundry Metallics; Cosmopolitan Bastille; Lagoon; Tourmaline; Arcadian Teal; Chateaux Ormeaux on Bastille; Ormeaux on Lagoon; Classic: Deep Turquoise; Emerald Green; Lime Green; Jade; Marine Blue; Moonstone and Prussian Blue. These colours are copper-based glazes and are all prone to discolouration by the very mild acids often found in the home, for example lemon scented soaps, wine, orange juice and fruit. To avoid discolouration, wash these tiles with clean water only and wipe them dry. Tiles and mouldings in these colours are recommended for dry areas only and should not be installed near the kitchen sink or in shower cubicles. If they do get wet for any reason, always wipe any excess residue from the tile surface immediately with warm water and then dry off.

**Residence Foundry Metallic Roman Gold. Fine white crystals may appear on the glaze surface. This is called efflorescence, which is as a result of a natural chemical reaction within the tile. We cannot guarantee against this happening. If it does occur, brush the glaze surface with a stain remover such as LTP Grout Stain Remover. Dilute with four parts of warm water and brush over the glazed surface of the tile. Leave for thirty seconds and wash off completely with water and a wet cloth. Dry with a soft dry cloth.

Please refer to the Fixing Guide at www.winchestertiles.com for more information.

Where applicable, all Winchester tiles are manufactured and tested to European Standard EN14411.

COLOUR VARIATION AND SHADING

The surfaces of Winchester Residence, Artisan and Classic Collection tiles undulate gently, allowing natural shading to occur. These distinctive yet subtle variations in shade within each tile, moulding and border mean no two pieces are ever identical which gives a wonderful impression of depth to tiled areas, adding to their beauty and charm. There may also be subtle shade variations between the background colour on decorative tiles and any co-ordinating/matching field tile.

Before making your choice it is always advisable to ask your Winchester supplier to show you samples.

Before fixing, it is very important to lay the tiles out in good light to ensure that any shade difference is evenly distributed. No liability for shading issues can be accepted after installation.

Please see note below regarding Foundry Metallics.

Artisan Gloss and Crackle colours

Please note that there will be slight colour differences between Gloss and Crackle colours with the same name.

Please note, some reference images of tiles are not in proportion to reference images in other sections.

† CRAZING AND CRACKLE GLAZE TILES

Highly glazed ceramic tiles may craze with time and no guarantee can be given against this occurrence. This is an inherent part of our hand finished tiles and adds to their rustic nature.

Some of our glazes are subject to crazing in particular Residence Cosmopolitan - Agapanthus, Amun, Bastille, Chestnut, Flint, Lagoon, Mint, Celadon, Musk, Rioja Tourmaline and Truffle, and Classic Collection - Soft Yellow, Marine Blue and Deep Turquoise. This is an inherent part of our tiles and adds to their rustic nature. Residence Arcadian tiles and mouldings and Artisan Crackle tiles and mouldings are deliberately crackled (as a result of a specific glazing process) to give an aged appearance.

When used in wet areas, all crazed and crackle tiles should be sealed with an impregnator to stop moisture penetrating the body of the tile and causing discolouration. Crazed and Crackle tiles should then be resealed after 90 days of installation and then again after one year. Crackle glazes and crazed tiles will continue to crackle/craze for several months, and so as this occurs each new crackle/craze line becomes unsealed. Suitable impregnators are LTP2905 and Fila MP90

You may notice the Residence Arcadian and Artisan Crackle tiles may make a 'crackling' noise as they acclimatise to the temperature of your home and may continue to do so for a short while after installation. This is perfectly normal and is part of the charm of these tiles.

To enhance the inherent crackle feature you may wish to apply a coloured grout of your choice over your unsealed tiles before installation. The pigments within the grout will stain into the crackle making the tile appear aged. Once the grout is dry, buff the tiles clean then seal to trap the colour using impregnator sealer. Leave this to dry and tile as normal. After applying the tiles and once the adhesive is dry the grouting can be completed to finish you installation. We advise that you test a single tile first to achieve the result you require. Caution must be taken when using coloured grouts - always test a single tile first.

CLEANING

Wash down tiled surfaces with either clean water or a neutral (i.e. not acidic or alkaline) detergent. Dry off and polish with a dry duster.

DIMENSIONS

All dimensions shown throughout the brochure are nominal; actual dimensions for individual tiles may vary from these figures.

In this brochure some of the reference images of tiles are not in proportion to reference images in other sections.

INSTALLATION

For full installation instructions, including grouting and adhesive recommendations, please refer to the Winchester Fixing Guide available at www.winchestertiles.com before commencing your installation.

In the USA please follow the recommendations of a reputable adhesive manufacturer and always comply with the American National Institution (ANSI) specifications as set out in the Handbook for Ceramic Tile Installation published by the Tile Council of America.

REPEATING PATTERNS

Artisan decorated tiles

Please note that decorative tiles are made individually and may have slight differences between them. They may not line up with each other exactly if placed together, but the overall effect will be stunning.

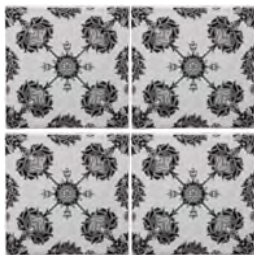

The designs on these decorative tiles are subtly asymmetrical. To ensure a pleasing repeating pattern, carefully lay the tiles out before fixing them to the wall, to make sure that the patterns on the four edges match each other.

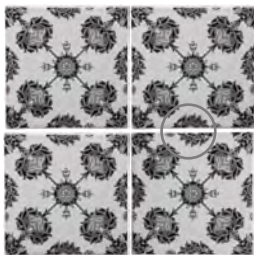

This is correct as all 4 tiles are the right way up

This is incorrect as the patterns on the sides do not line up, because the tile bottom right is upside down

This is correct as all 4 tiles are the right way up

This is incorrect as the patterns top and bottom do not line up, because the tile bottom right is side on

This is correct as all 4 tiles are the right way up

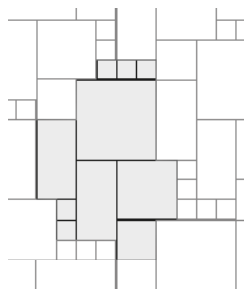

This is incorrect as the patterns on the sides do not line up, because the tile bottom right is upside down

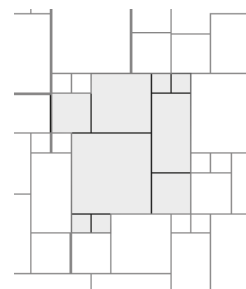

PATTERN LAYOUTS FOR RESIDENCE FOUNDRY METALLICS

Each and every Foundry Metallic tile is deliberately different, and this is particularly noticeable in the Roman Gold colours. Some may be rippled, or have uneven textures and colours. This is as a result of chemical reactions between the different glazes and tile base, and factors such as position in the kiln when they are fired. It means that your tile installation will be unique and distinctive. Below are a couple of guidelines for combining different sizes together. These metallic tiles can be mixed and matched to create many different effects – feel free to experiment!

PATTERN A

PATTERN B

PHOTOGRAPHY

Owing to variations in studio lighting and printing inks, the tile colours shown in this brochure may differ slightly from those of the actual tiles. Before making your choice it is always advisable to ask your Winchester supplier to show you samples.

LIMITS OF LIABILITY

The Winchester Tile Company accepts no liability for the faulty installation of its tiles. In the case of any claim relating to the tiles themselves, Winchester Tile's liability, to the extent permitted by law, is limited to either the replacement of the product or a refund of the cost of the product, and does not extend to cover any consequential loss. Claims must be reported within seven working days from receipt of the tiles. Tiles must be inspected prior to installation and claims cannot be considered after the tiles have been installed. Please be advised that installation constitutes acceptance of the quality, colour, texture, shade and size of tiles.

The Winchester Tile Company warrants that its tiles conform to their description and are fit for their purpose. The Winchester Tile Company makes no other express or implied warranty as to fitness or suitability of the products for particular installations. We extend no guarantees, express or implied, as to wear resistance or maintenance procedures.

Please note, the use of certain acid based cleaning products may cause some of the tiles to react and change in character.

INFORMATIONS ESSENTIELLES

Les carreaux en céramique fortement vitrifiés peuvent se caqueler au fil du temps. Nous ne pouvons offrir aucune garantie contre cette éventualité. Il s'agit d'une caractéristique essentielle de nos carreaux finis à la main, qui renforce en outre leur aspect rustique.

Les carrelages muraux Winchester ne conviennent pas pour une pose au sol ou en extérieur. Ils sont uniquement destinés à une pose murale, en intérieur. Nous vous déconseillons de poser les carreaux Winchester sur les surfaces de travail car ils seront sensibles à l'usure et aux rayures. Certains carreaux ne conviennent pas aux zones humides, comme indiqué ci-dessous.

Collection	Produit	Externe	Murs intérieurs	Zones humides, telles que les douches, salles de bain, crédences de cuisine	Notes spéciales
Residence Cosmopolitan (brillant)	Tous (sauf les émaux à base de cuivre Bastille, Lagoon, Tourmaline)	×	✓	✓	
	Les émaux à base de cuivre Bastille, Lagoon, Tourmaline	×	✓	×	Convient aux endroits secs uniquement*
	Agapanthus, Amun, Chestnut, Flint, Lagoon, Mint, Musk, Rioja, Truffe couleurs susceptibles au faïençage	×	✓	✓	En cas de faïençage [†] il faudra les imperméabiliser Ne pas installer dans une douche à haute pression
Residence Arcadian (craquelé)	Tous (sauf l'émail à base de cuivre Teal)	×	✓	✓	Imperméabilisez les joints en cas d'installation dans une zone humide [†] . Ne pas installer dans une douche à haute pression
	L'émail à base de cuivre Teal	×	✓	×	Convient aux endroits secs uniquement*
Residence Metropolitan (lustré)	Toutes collections	×	✓	✓	
Residence Foundry Metallics	Tous Roman Gold (Des éfiorescences risquent d'apparaître**)	×	✓	×	Convient aux endroits secs uniquement*
Residence Decoratives	Tous (sauf l'émail à base de cuivre Ormeaux on Bastille/Lagoon)	×	✓	✓	
	L'émail à base de cuivre Ormeaux on Bastille/Lagoon	×	✓	×	Convient aux endroits secs uniquement*
	Ormeaux/Villette/Behen/Bourron/Merles on Truffe et Ormeaux on Lagoon/Amun/Mint/Rioja/Chestnut qui risquent de se craqueler	×	✓	✓	En cas de faïençage [†] il faudra les imperméabiliser Ne pas installer dans une douche à haute pression
Artisan Brillant	Toutes collections	×	✓	✓	
Artisan Craquelé	Toutes collections	×	✓	✓	Imperméabilisez les joints en cas d'installation dans une zone humide [†] . Ne pas installer dans une douche à haute pression
Artisan Décoratif	Toutes collections	×	✓	✓	
Classic	Tous (sauf Soft Yellow, Marine Blue, Deep Turquoise, Emerald Green, Lime Green, Moonstone, Prussian Blue)	×	✓	✓	
	Toutes collections qui risquent de se craqueler	×	✓	✓	En cas de faïençage [†] il faudra les imperméabiliser Ne pas installer dans une douche à haute pression
	Les émaux à base de cuivre Deep Turquoise, Emerald Green, Lime Green, Moonstone, Prussian Blue	×	✓	×	Convient aux endroits secs uniquement*

*Residence Foundry Metallics; Cosmopolitan Bastille, Lagoon, Tourmaline; Residence Arcadian Teal; Classic Collection Deep Turquoise, Emerald Green, Lime Green, Marine Blue, Moonstone, Prussian Blue
Ces couleurs sont des émaux à base de cuivre qui risquent tous de se décolorer au contact des acides même les plus doux que l'on retrouve couramment dans les intérieurs, par exemple les savons parfumés au citron, le vin, le jus d'orange et les fruits. Pour éviter toute décoloration, lavez-les à l'eau uniquement et séchez-les avec un torchon. Il est conseillé d'installer les carreaux et moulures de ces couleurs uniquement dans les zones sèches, et d'éviter de les poser à proximité des éviers ou dans les cabines de douche. S'ils deviennent humides ou mouillés pour quelque raison que ce soit, rincez immédiatement leur surface à l'eau tiède puis séchez-les.

**Residence Foundry Metallic Roman Gold. Des petits cristaux pourront apparaître à la surface de l'émail. C'est ce qu'on appelle l'éfiorescence, provoquée par une réaction chimique naturelle avec le carreau. Nous ne pouvons pas garantir que ce phénomène ne se produira pas. S'il se produit, brossez la surface de l'émail avec un produit détachant. Diluez une dose de produit dans quatre doses égales d'eau puis brossez la surface du carreau. Laissez agir trente secondes puis rincez bien avec un chiffon imbibé d'eau. Séchez ensuite avec un chiffon sec et doux.

Veillez vous référer au Guide d'installation sur www.winchestertiles.com pour de plus amples informations.

Lorsque cela est possible, les carreaux Winchester sont fabriqués et testés selon la norme européenne EN14411.

VARIATIONS DE COULEUR ET TEINTE

La surface des carreaux Winchester Residence, Artisan et Classic Collection ondule délicatement, créant ainsi naturellement des nuances de couleur. Ces variations de teinte, à la fois distinctives et subtiles, sur chaque carreau, moulure et bordure, confèrent à chacun de ces éléments une apparence unique. Elles donnent ainsi une merveilleuse impression de profondeur aux surfaces carrelées et accentuent encore leur charme et leur beauté. De subtiles variations peuvent aussi apparaître entre la couleur de fond des carreaux décoratifs et tout carreau uni correspondant.

Avant de faire votre choix, il est toujours préférable de demander à votre revendeur Winchester de vous montrer des échantillons.

Avant de poser vos carreaux, il est important de les étaler sous une lumière. Nous n'accepterons aucune responsabilité pour les problèmes liés à la teinte une fois les carreaux installés.

Veillez vous reporter à la note ci-dessous concernant Foundry Metallics.

Couleurs brillantes ou craquelées Artisan

Veillez noter qu'une couleur de même nom pourra présenter une légère variation de teinte selon qu'elle est brillante (Gloss) ou craquelée (Crackle).

Notez également que certaines images de référence ne sont pas aux mêmes proportions que les images de référence des autres sections.

† FAÏENÇAGE ET CARREAUX CRAQUELÉS

Les carreaux en céramique fortement vitrifiés peuvent se faïencer au fil du temps. Nous ne pouvons offrir aucune garantie contre cette éventualité. Il s'agit d'une caractéristique essentielle de nos carreaux finis à la main, qui renforce en outre leur aspect rustique.

Certains de nos émaux sont sujets au faïençage, notamment Residence Cosmopolitan – Agapanthus, Amun, Bastille, Chestnut, Flint, Lagoon, Mint, Musk, Rioja, Tourmaline et Truffe, ainsi que Classic Collection - Soft Yellow, Marine Blue et Deep Turquoise.

Les carreaux et moulures Residence Arcadian et Artisan Crackle sont délibérément craquelés (en conséquence du procédé d'émaillage suivi) pour leur donner un charmant aspect vieilli.

Lorsque les carreaux faïencés ou craquelés sont posés dans des endroits humides, il est conseillé de les imperméabiliser avec un imprégnateur afin d'empêcher que l'humidité pénètre à l'intérieur des carreaux et provoque leur décoloration. Les carreaux faïencés ou craquelés devront ensuite être réimperméabilisés 90 jours après la pose, puis de nouveau un an plus tard. En effet, les émaux craquelés et les carreaux faïencés continueront de se craqueler pendant encore quelques mois et chaque nouvelle craquelure qui apparaît est une porte d'entrée pour l'humidité. Nous vous conseillons d'utiliser les produits imperméabilisants LTP2905 ou Fila MP90.

Veillez toujours à bien sceller les carreaux craquelés avant de passer à l'étape des joints, ce qui facilitera le nettoyage des craquelures après avoir terminé le jointement. Vous risqueriez sinon d'avoir une coloration dans les craquelures dûe aux pigments du joint. Veillez voir ci-dessous.

Vous remarquerez peut-être que les carreaux Residence Arcadian et Artisan Crackle émettent un son de « craquelure » alors qu'ils s'accroissent à la température ambiante de votre intérieur, un phénomène qui pourra se poursuivre pendant quelques temps après leur installation. Cela est tout à fait normal et fait partie du charme de ces carreaux.

Pour faire ressortir l'aspect craquelé naturel, vous pouvez appliquer un ciment-joint de la couleur de votre choix par-dessus vos carreaux avant de les imperméabiliser et de les poser. Les pigments du ciment-joint s'imprégneront dans les craquelures, ce qui donnera au carreau un aspect vieilli. Une fois le ciment-joint sec, frottez les carreaux jusqu'à ce qu'ils soient bien propres puis imperméabilisez-les avec un produit d'imprégnation adapté pour fixer la couleur. Laissez sécher les carreaux puis posez-les selon la procédure habituelle.

Après avoir posé les carreaux, et une fois que la colle aura séché, vous pouvez finir de poser les joints pour donner la touche finale à votre installation. Nous vous conseillons de faire un essai préalable sur un seul carreau pour vérifier que le résultat correspond à vos attentes. Restez vigilants lors que vous utilisez des ciments-joints colorés : faites toujours un premier essai sur un seul carreau.

NETTOYAGE

Nettoyez les surfaces carrelées à l'eau propre ou bien avec un détergent neutre (ni acide, ni alcalin). Séchez et frottez avec un chiffon non pelucheux.

DIMENSIONS

Toutes les dimensions indiquées dans cette brochure sont nominales ; les dimensions réelles des carreaux individuels peuvent être différentes de celles indiquées.

Notez également que certaines images de référence ne sont pas aux mêmes proportions que les images de référence des autres sections.

INSTALLATION

Pour obtenir des instructions complètes l'installation, y compris des recommandations concernant les ciments-joints et les colles, veuillez vous reporter au Guide de fixation Winchester sur www.winchestertiles.com avant de procéder à l'installation.

MOTIFS RÉPÉTITIFS

Carreaux décorés Artisan

Notez que les carreaux décoratifs sont fabriqués individuellement et pourront présenter de légères différences d'un carreau à l'autre. Ils ne s'aligneront pas toujours parfaitement lorsque vous les posez ensemble mais l'effet général n'en sera pas moins saisissant.

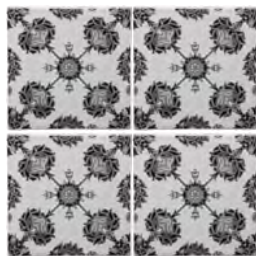

Les motifs de ces carreaux décoratifs sont subtilement asymétriques. Pour que votre motif répétitif soit harmonieux, disposez vos carreaux soigneusement sur le sol avant de les installer au mur pour vérifier que les motifs en bordure de chaque carreau soient assortis aux carreaux adjacents.

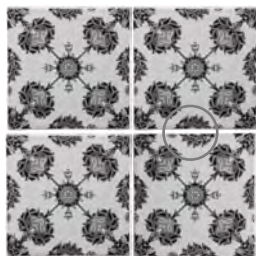

Cette disposition est correcte car les 4 carreaux sont dans le bon sens

Cette disposition est incorrecte : les motifs sur les côtés ne sont pas alignés car le carreau en bas à droite est à l'envers

Cette disposition est correcte car les 4 carreaux sont dans le bon sens

Cette disposition est incorrecte : les motifs ne sont pas alignés en haut et en bas car le carreau en bas à droite est mal orienté

Cette disposition est correcte car les 4 carreaux sont dans le bon sens

Cette disposition est incorrecte : les motifs sur les côtés ne sont pas alignés car le carreau en bas à droite est à l'envers

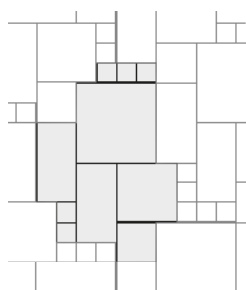

ÉMAILLAGE

NB: Nous ne pouvons pas garantir que les moulures Residence Arcadian/ Metropolitan Torus/Ogee seront totalement émaillés sur le bord supérieur. Par conséquence, la couleur du base peut apparaître, et nous ne pouvons pas remédier contre cela.

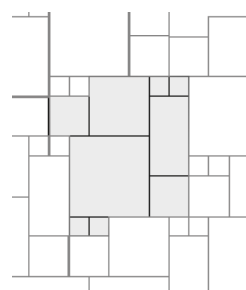

COMPOSITION DES MOTIFS SUR RESIDENCE FOUNDRY METALLICS

Chaque carreau Foundry Metallic est délibérément différent, ce qui est particulièrement évident avec les couleurs Roman Gold. Certains présenteront des ondulations, des couleurs variables ou des textures irrégulières. Ceci est le résultat de réactions chimiques entre les différents émaux et le carreau de base, mais aussi d'autres facteurs tels que leur position dans le four au moment de leur cuisson. Cela signifie que votre installation sera unique et distinctive. Vous trouverez ci-dessous quelques conseils pour combiner les carreaux de différentes dimensions. Ces carreaux métalliques peuvent être mélangés et assortis entre eux pour créer des effets incroyablement variés. Laissez libre cours à votre imagination !

PHOTOGRAPHIE

L'éclairage en studio et les encres utilisées pour l'impression peuvent affecter les couleurs des carreaux présentés dans ce catalogue. Avant de faire votre choix, il est toujours préférable de demander à votre revendeur Winchester de vous montrer des échantillons.

RESPONSABILITÉ

Winchester Tile Company n'accepte aucune responsabilité si ses carreaux ne sont pas installés correctement. En cas de plainte concernant les carreaux mêmes, la responsabilité de Winchester Tile, en conformité avec la loi, se limite au remplacement ou au remboursement complet du produit et ne couvre aucune perte indirecte. Toute réclamation doit être effectuée dans les sept jours suivant la réception des carreaux. Les carreaux doivent être inspectés avant installation. Aucune réclamation ne sera prise en compte une fois les carreaux installés. Veuillez noter que l'installation des carreaux représente l'acceptation de leur qualité, couleur, texture, teinte et taille.

Winchester Tile Company garantit que ses carreaux sont conformes à leur description et conviennent à l'usage indiqué. Winchester Tile Company ne garantit en aucun cas, expressément ou implicitement, la conformité des produits à des installations particulières. Nous ne formulons aucune garantie, expresse ou implicite, vis-à-vis de la résistance à l'usure ou des procédures d'entretien.

Veuillez noter que l'utilisation de certains produits nettoyants à base d'acide peut provoquer des réactions sur certains carreaux et en modifier les caractéristiques.

WICHTIGE INFORMATIONEN

Stark glasierte Keramikfliesen Können mit der Zeit Risse bekommen und wir können in dieser Hinsicht keine Gewähr übernehmen. Dies ist eine Eigenart unserer Fliesen und unterstreicht ihren rustikalen Charme.

Winchester-Wandfliesen eignen sich nicht für Böden oder Außenbereiche. Sie sind nur für Innenwände geeignet. Wir empfehlen nicht, dass Winchester Fliesen als Arbeitsflächen installiert werden. Wenn sie auf Arbeitsflächen verlegt werden, zeigen sich schnell Anzeichen von Verschleiß und Oberflächenkratzer. Einige sind nicht für Nassräume geeignet, siehe unten.

Kollektion	Product	Außenbereiche	Innenwände	Nassräume wie Duschen, Nasszellen, Waschbecken Spritzschutz	Besondere Hinweise
Residence Cosmopolitan (Hochglanz)	Alle (außer Bastille, Lagoon, Tourmaline Kupferglasuren)	×	✓	✓

*Residence Foundry Metallics; Cosmopolitan Bastille, Tourmaline; Residence Arcadian Teal; Classic Collection Deep Turquoise, Emerald Green, Lime Green, Marine Blue, Moonstone, Prussian Blue
Diese Farben haben eine kupferhaltige Glasur, die durch die im Haushalt oft zu findenden milden Säuren (z. B. Seife mit Zitronensäure, Wein, Orangensaft und Früchte) ausgefärbt werden kann. Sie können eine Ausfärbung vermeiden, indem Sie die Fliesen ausschließlich mit klarem Wasser waschen und anschließend trockenreiben. Fliesen und Formstücke in diesen Farben sind nur für den Einsatz in Trockenbereichen zu empfehlen, nicht aber in Nähe der Küchenspüle oder der Duschkabine. Wenn sie aus irgendeinem Grund nass werden, überschüssige Rückstände immer sofort mit warmem Wasser von der Fliesenoberfläche wischen und dann abtrocknen.

**Residence Foundry Metallic Roman Gold Auf der Glasuroberfläche können feine weiße Kristalle erscheinen. Diese werden als Ausblühungen bezeichnet und entstehen aufgrund einer natürlichen chemischen Reaktion innerhalb der Fliese. Wir können für einen solchen Umstand keine Garantie geben. Sollte dies auftreten, bürsten Sie die Glasuroberfläche mit einem Fleckentferner ab. Fleckentferner mit vier Teilen warmem Wasser verdünnen und die glasierte Oberfläche der Fliese abbürsten. 30 Sekunden warten und dann vollständig mit Wasser und einem feuchten Tuch abwaschen. Mit einem weichen, trockenen Tuch trocknen.

Sehen Sie hierzu bitte die Anleitung zur Fliesenverlegung auf www.winchestertiles.com.

Sofern zutreffend, werden alle Winchester Fliesen gemäß der Europäischen Norm EN14411 hergestellt.

FARBABWEICHUNGEN UND FARBNUANCEN

Die Oberfläche der Fliesensortimente Winchester residence, Artisan and Classic Collection verläuft leicht wellenförmig, sodass natürliche Farbnuancen auftreten können. Diese charakteristischen Abweichungen des Farbtons in jeder Fliese, jedem Formstück oder jeder Bordüre sorgen dafür, einen wunderbaren Eindruck von Tiefe, der ihre natürliche Schönheit zusätzlich betont. Auch bei Dekorfliesen und etwaigen koordinierenden/passenden Grundfliesen kann es leichte Unterschiede im Farbton geben.

Es ist stets ratsam, Ihren Winchester Händler zu bitten, Ihnen Muster zu zeigen, bevor Sie Ihre Auswahl treffen.

Vor dem Verlegen der Fliesen müssen diese unbedingt unter guten Lichtverhältnissen lose ausgelegt werden, damit etwaige Farbunterschiede gleichmäßig verteilt werden können. Wir können keine Haftung für eventuelle Farbprobleme nach der Installation übernehmen.

Beachten Sie bitte den Hinweis unten über Foundry Metallics.

Artisan Hochglanz- und Craquelé-Glasur-Farben

Beachten Sie bitte, dass geringfügige Farbunterschiede zwischen Gloss und Crackle (Hochglanz- und Craquelé-Glasur-Farben) mit dem gleichen Namen existieren.

Bitte beachten Sie, dass die Referenzbilder nicht im Größenverhältnis zu Bildern von Fliesen an anderer Stelle stehen.

†HAARRISSE UND CRAQUELÉ-GLASUR-FLIESEN

Stark glasierte Keramikfliesen Können mit der Zeit Risse bekommen und wir können in dieser Hinsicht keine Gewähr übernehmen. Dies ist eine Eigenart unserer Fliesen und unterstreicht ihren rustikalen Charme.

Manche Glasuren sind rissanfällig, dies gilt besonders für Residence Cosmopolitan Agapanthus, Amun, Bastille, Chestnut, Flint, Lagoon, Mint, Celadon, Musk, Rioja Tourmaline and Truffle, and Classic Collection - Soft Yellow, Marine Blue and Deep Turquoise.

Residence Arcadian Fliesen und Formstücke sowie Artisan Crackle Fliesen und Formstücke zeigen absichtliche Risse auf (als Ergebnis eines bestimmten Glasierungsverfahrens), um ein attraktives gealtertes Aussehen zu erreichen.

In Feuchträumen müssen alle Fliesen mit Haarrissen und Craquelé Glasur mit einem Imprägniermittel versiegelt werden, damit keine Feuchtigkeit in den Fliesenträger eindringen und Verfärbungen verursachen kann. Sie sollten dann 90 Tage nach dem Verlegen sowie ein Jahr nach der Installation erneut versiegelt werden. Die Risse bilden sich über mehrere Monate, so dass jeder neue Haarriss unversiegelt ist. Geeignete Imprägniermittel sind LTP2905 oder Fila MP90. Um die Entfernung von Fugenresten zu vereinfachen, empfehlen wir Fliesen mit Craquelé Glasur oder Rissen vorher zu imprägnieren, wenn die Fugenfarbe die Risse nicht färben soll – siehe unten.

Sie werden feststellen, dass Residence Arcadian und Artisan Crackle Fliesen ein „Knistern“ erzeugen, während sie sich an die Temperatur Ihres Hauses anpassen. Dies kann sich auch für eine kurze Zeit nach der Installation fortsetzen. Das ist völlig normal und Teil des Charmes dieser Fliesen.

Um das charakteristische Aussehen der Craquelé-Glasur-Fliesen zu betonen, können Sie vor dem Verlegen eine farbige Fugenmasse Ihrer Wahl über Ihren unversiegelten Fliesen verwenden. Die Pigmente in der Fugenmasse fließen in die Glasur ein und geben der Fliese ein gealtertes Aussehen.

Sobald die Fugenmasse trocken ist, polieren Sie die Fliesen, bis sie sauber sind und versiegeln Sie die Fliesen anschließend mit einer Imprägnierversiegelung. Lassen Sie diese trocknen und verlegen Sie dann die Fliesen wie üblich. Nach dem Verlegen der Fliesen und Aushärten des Klebers kann das Verfugen beginnen. Wir empfehlen, dass Sie zunächst eine einzelne Fliese testen, um sicher zu sein, das gewünschte Ergebnis zu erzielen. Bei der Verwendung von farbiger Fugenmasse ist Vorsicht geboten – testen Sie immer zuerst eine einzelne Fliese.

REINIGUNG

Geflieste Flächen entweder mit klarem Wasser oder einem neutralen Reinigungsmittel (d. h. weder saures noch alkalisches Mittel) abwaschen. Mit einem trockenen Staubtuch abtrocknen und polieren.

ABMESSUNGEN

Bei allen Maßangaben in dieser Broschüre handelt es sich um Nennwerte; die tatsächlichen Maße einzelner Fliesen können etwas abweichen.

Bitte beachten Sie, dass in dieser Broschüre einige Referenzbilder nicht im Größenverhältnis zu Bildern von Fliesen an anderer Stelle stehen.

INSTALLATION

Vollständige Installationshinweise, einschl. Empfehlungen zu Kleber und Fugenmasse finden Sie in der Anleitung zur Verlegung von Winchester Fliesen unter www.winchestertiles.com.

RAPPORT-DESIGNS

Artisan Dekorfliesen

Bitte beachten Sie, dass Dekorfliesen einzeln gefertigt werden und leichte Unterschiede aufweisen können. Unter Umständen kann es passieren, dass sie nicht exakt in einer Linie liegen. Dennoch ist die Gesamtwirkung beeindruckend.

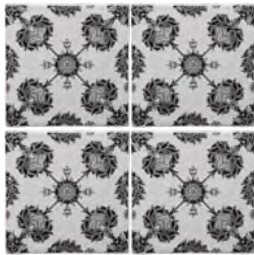

Die Designs dieser Dekorfliesen sind leicht asymmetrisch. Um ein attraktives wiederholendes Muster zu gewährleisten, legen Sie die Fliesen vor der Befestigung an der Wand sorgsam aus, um sicherzustellen, dass die Muster auf den vier Kanten zueinander passen.

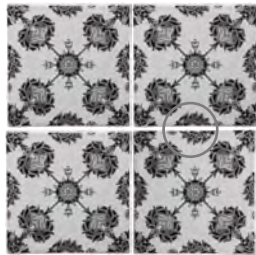

Richtig, da alle 4 Fliesen korrekt ausgerichtet sind

Falsch, da die Muster an den Seiten nicht in einer Linie liegen, weil die Fliese unten rechts auf dem Kopf steht

Richtig, da alle 4 Fliesen korrekt ausgerichtet sind

Falsch, da die Muster an den Seiten nicht in einer Linie liegen, weil die Fliese unten rechts seitlich verdreht ist

Richtig, da alle 4 Fliesen korrekt ausgerichtet sind

Falsch, da die Muster an den Seiten nicht in einer Linie liegen, weil die Fliese unten rechts auf dem Kopf steht

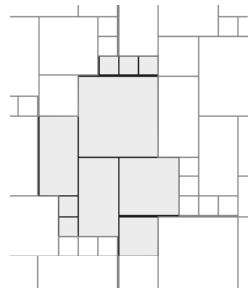

GLASIERTE KANTEN

Vermerk: Eine glasierte Oberkante ist bei Residence Arcadian/Metropolitan Torus/Ogee Formteilen unwahrscheinlich. D.h. wir können nicht garantieren dass die Farbe des Rohlings nicht evtl. an der Oberkante zu sehen ist.

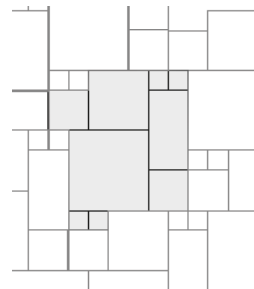

MUSTERANORDNUNG FÜR RESIDENCE FOUNDRY METALLICS

Jede einzelne Foundry Metallic Fliese ist bewusst anders gestaltet – dies ist besonders bei den Roman Gold Farben auffällig. Einige sehen wellig aus oder weisen unebene Texturen und Farben auf. Dies ist das Ergebnis von chemischen Reaktionen zwischen den verschiedenen Glasuren und dem Fliesenträger sowie Faktoren wie die Position im Ofen, als die Fliese gebrannt wurde. Daraus folgt, dass Ihre Flieseninstallation einzigartig und unverwechselbar ist. Unten haben wir ein paar Richtlinien für die Kombination verschiedener Größen zusammengestellt. Diese metallischen Fliesen können so miteinander kombiniert werden, dass sich viele verschiedene Effekte ergeben – experimentieren Sie einfach!

PATTERN A

PATTERN B

FOTOGRAFIEN

Aufgrund von Abweichungen in Studioleuchtung und Druckfarben, können die Fliesenfarben, die in dieser Broschüre dargestellt sind, leicht von den Farben der tatsächlichen Fliesen abweichen. Es ist stets ratsam, Ihren Winchester Händler zu bitten, Ihnen Muster zu zeigen, bevor Sie Ihre Auswahl treffen.

HAFTUNGSBESCHRÄNKUNG

Die Winchester Tile Company übernimmt für die fehlerhafte Installation der Fliesen keine Haftung. Sollte es Reklamationen bezüglich der Fliesen selbst geben, dann beschränkt sich die gesetzliche Haftung von Winchester Tile lediglich auf den Artikelaustausch oder Kostenrückerstattung. Weitere Schäden werden nicht abgedeckt. Reklamationen müssen innerhalb von sieben Arbeitstagen nach Erhalt der Fliesen eingereicht werden. Fliesen müssen vor der Installation kontrolliert werden. Eine Reklamation nach der Installation ist nicht möglich.

Bitte beachten Sie, dass Sie durch die Installation Qualität, Farbe, Textur, Farbe und Größe der Fliesen akzeptieren.

Die Winchester Tile Company gewährleistet die beschreibungs- und zweckgemäße Fabrikationsausführung der Fliesen. Die Winchester Tile Company gibt keine weiteren ausdrücklichen oder impliziten Garantien hinsichtlich Eignung der Produkte für besondere Installationsarten. Wir geben weder ausdrücklich noch implizit eine Garantieverlängerung auf Abnutzungsverhalten oder Wartungsarbeiten.

Die Verwendung von säurebasierten Reinigungsprodukten kann bei einigen Fliesen Reaktionen und Veränderungen im Erscheinungsbild hervorrufen.

BELANGRIJKE INFORMATIE

Sterk geglaazuurde keramische tegels kunnen na verloop van tijd haarscheurtjes gaan vertonen. We kunnen dienaangaande geen enkele garantie bieden. Dit is een eigenschap van onze handgemaakte tegels en draagt bij aan hun rustieke aard.

Winchester-wandtegels zijn niet geschikt voor vloeren en buitengebruik. Ze zijn alleen bedoeld voor binnenmuren. We raden niet aan dat de tegels van Winchester worden gezet als werkkoppervlakken. Als ze worden gebruikt voor werkkoppervlakken, dan zullen tekenen van slijtage en krassen zichtbaar zijn. Enkele zijn niet geschikt voor natte oppervlakken: zie hieronder.

Collectie	Product	Buiten	Binnenmuren	Natte oppervlakken, zoals douches, sauna's en splashbacks bij gootstenen	Speciale aantekeningen
Residence Cosmopolitan (gloss)	Alle (behalve Bastille, Lagoon, Tourmaline kopergeglazuurd)	×	✓	✓	
	Bastille, Lagoon, Tourmaline kopergeglazuurd	×	✓	×	Alleen droge ruimtes*
	Agapanthus, Amun, Chestnut, Flint, Lagoon, Mint, Musk, Rioja, Truffle die haarscheurtjes kunnen vertonen	×	✓	✓	Indien haarscheurtjes verschijnen†, sealen met impregneermiddel als ze op natte plekken worden gezet. Niet geschikt voor gebruik in de buurt van 'power showers'
Residence Arcadian (gecraqueleerd)	Alle (except Teal-kopergeglazuurd)	×	✓	✓	Sealen met impregneermiddel als ze op natte plekken worden gezet. Niet geschikt voor gebruik in de buurt van 'power showers'
	Teal kopergeglazuurd	×	✓	×	Alleen droge ruimtes*
Residence Metropolitan (glans)	Alle	×	✓	✓	
Residence Foundry Metallics	Alle Roman Gold (May be subject to efflorescence**)	×	✓	×	Alleen droge ruimtes*
Residence Decoratives	Alle (behalve Ormeaux on Bastille/Lagoon kopergeglazuurd)	×	✓	✓	
	Ormeaux on Bastille/Lagoon kopergeglazuurd	×	✓	×	Alleen droge ruimtes*
	Ormeaux/Villette/Behen/Bourron/Merles on Truffle en Ormeaux on Lagoon/Amun/Mint/Rioja/Chestnut die haarscheurtjes kunnen vertonen	×	✓	✓	Indien haarscheurtjes verschijnen†, sealen met impregneermiddel als ze op natte plekken worden gezet. Niet geschikt voor gebruik in de buurt van 'power showers'
Artisan Glanzend	Alle	×	✓	✓

*Residence Foundry Metallics; Cosmopolitan Bastille, Lagoon, Tourmaline; Residence Arcadian Teal; Classic Collection Deep Turquoise, Emerald Green, Lime Green, Marine Blue, Moonstone, Prussian Blue
Deze kleuren zijn glazuren op koperbasis en kunnen verkleuren als gevolg van de zeer milde zuren die vaak worden aangetroffen bij mensen thuis, bijvoorbeeld in schoonmaakmiddel met citroengeur, wijn, sinaasappelsap en fruit. Om deze verkleuring te vermijden, wast u deze tegels alleen met schoon water en droogt u ze af. Tegels en profielen in deze kleuren worden alleen aanbevolen voor droge plekken en dienen niet in de buurt van de keukengootsteen of in de douchecabine te worden gezet. Als ze toch nat worden, dan veegt u de resten onmiddellijk van de tegels af met warm water en droogt u ze af.

**Residence Foundry Metallic Roman Gold Er kunnen kleine, witte kristallen verschijnen op het geglaazuurde oppervlak. Dit wordt efflorescentie genoemd en is het gevolg van een natuurlijke chemische reactie in de tegel. We kunnen niet garanderen dat dit niet gebeurt. Als het gebeurt, dan borstelt u het geglaazuurde oppervlak af met een vlekkenverwijderaar. Verdun de vlekkenverwijderaar met vier delen warm water en borstel het geglaazuurde oppervlak van de tegel af. Laat het middel dertig seconden intrekken en spoel het dan af met water en een vochtige doek. Droog het af met een zachte, droge doek.

Raadpleeg de installatiegids op www.winchestertiles.com voor meer informatie.

Voor zover van toepassing zijn alle tegels van Winchester geproduceerd in overeenstemming met Europese Richtlijn EN14411.

KLEURVARIATIE EN NUANCERING

Tegels uit de Winchester Residence, Artisan en Classic Collection hebben overvlakken die enigszins kunnen 'golven', zodat een natuurlijke nuanciering kan optreden. Deze opmerlijke en subtiele variaties zorgen er voor dat de tegels nooit precies gelijk zijn. Hierdoor krijgen betegelde oppervlakken een gevoel van diepte, wat bijdraagt aan een charmant eindresultaat. Er kan ook sprake zijn van subtiele kleurschakeringen tussen de achtergrondkleur van de siertegels en coördinerende/bijpassende unitegels.

Voordat u uw keuze maakt, is het altijd raadzaam om uw Winchesterleverancier te vragen om monsters.

Leg de tegels neer op een goed verlichte plek voordat u ze zet, zodat verschillende kleurnuances goed worden verdeeld. We zijn niet aansprakelijk voor problemen met de kleurnuanciering na het zetten.

Zie de onderstaande tekst over Foundry Metallics.

Glanzende en gecraqueleerde kleuren van Artisan

Let op: er kan sprake zijn van kleine kleurverschillen tussen glanzende en gecraqueleerde kleuren met dezelfde naam. Let op: de verhouding van sommige referentieafbeeldingen van tegels verschilt van die van de afbeeldingen in andere secties.

†TEGELS MET HAARSCHERTJES EN GECRAQUELEERD GLAZUUR

Sterk geglaazuurde keramische tegels kunnen na verloop van tijd haarscheurtjes gaan vertonen. We kunnen dienaangaande geen enkele garantie bieden. Dit is een eigenschap van onze handgemaakte tegels en draagt bij aan hun rustieke aard.

Enkele van onze tegels kunnen haarscheurtjes vertonen, met name de Residence Cosmopolitan – Agapanthus, Amun, Bastille, Chestnut, Flint, Lagoon, Mint, Celadon, Musk, Rioja, Tourmaline en Truffle, en de Classic Collection – Soft Yellow, Marine Blue and Deep Turquoise.

Residence Arcadian tegels en profielen en de Artisan Crackle tegels en profielen bevatten opzettelijk craquelé (dit is het gevolg van een specifiek glazuurproces), zodat ze riantiek kunnen gebruiken.

Bij gebruik op vochtige plekken dienen alle gecraqueleerde tegels en tegels met haarscheurtjes te worden geïmpregneerd, zodat vocht niet binnendringt en de tegels niet verkleuren. Gecraqueleerde tegels en tegels met haarscheurtjes moeten dan na 90 dagen opnieuw worden geïmpregneerd, en vervolgens opnieuw na een jaar. Het craqueléproces van de tegels duurt enkele maanden. De tijdens dit proces ontstane scheurtjes moeten ook worden geïmpregneerd. Geschikte impregneermiddelen zijn LTP2905 of Fila MP90. Wanneer u niet wilt dat het voegmiddel de haarscheurtjes in het glazuur verkleurt, impregneer dan altijd de tegel voor het voegen, zodat u de scheurtjes makkelijk kunt schoonmaken. Zie hieronder.

U merkt wellicht dat de tegels van Residence Arcadian en Artisan Crackle een craquelégeluid maken als ze zich aanpassen aan de temperatuur van uw huis. Hiervan kan enige tijd na het zetten sprake zijn. Dit is absoluut normaal en maakt deel uit van de charme van deze tegels.

Om de inherente craquelé van de tegels te benadrukken, kunt u een gekleurd voegmiddel gebruiken over uw niet-geïmpregneerde tegels voor het zetten. Het pigment in het voegmiddel kleurt het craquelé, zodat de tegel er ouder uitziet. Zodra het voegmiddel is opgedroogd, poetst u de tegels schoon en impregneert u ze met behulp van het afdichtende impregneermiddel. Laat het opdrogen en betegel het oppervlak dan zoals u gewend bent. Na het zetten van de tegel en het opdrogen van het cement, kan het voegen worden voltooid. We raden aan dat u eerst een enkele tegel test voor het door u gewenste resultaat. Wees voorzichtig met gekleurde voegmiddelen: test altijd eerst een enkele tegel.

REINIGEN

Was betegelde oppervlakken met schoon water of een neutraal schoonmaakmiddel (geen bijtend middel, of op alkaliebasis). Droog af en poets op met een droge stoffdoek.

AFMETINGEN

Alle in de brochure vermelde afmetingen zijn nominaal. De werkelijke afmetingen van afzonderlijke tegels kunnen afwijken van deze cijfers.

De verhouding van sommige referentieafbeeldingen van tegels in de brochure verschilt van die van de afbeeldingen in andere secties.

DE INSTALLATIE

Voor alle installatieaanwijzingen, waaronder tips voor het voegen en voor de lijn, raadpleegt u voor het zetten de installatiegids van Winchester, die te vinden is op www.winchestertiles.com.

PATRONEN HERHALEN

Artisan-siertegels

De siertegels worden per stuk gemaakt. Er kan dus sprake zijn van kleine verschillen tussen de tegels. Als ze samen worden gelegd, dan sluiten ze wellicht niet precies op elkaar aan. Het overkoepelende effect is daarentegen prachtig.

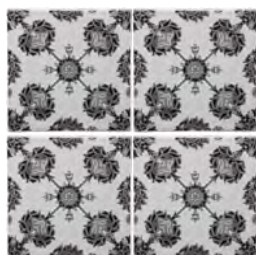

De ontwerpen op deze siertegels worden gekenmerkt door een subtiele asymmetrie. Om een mooie patroon met herhalingen te maken, legt u de tegels neer voordat u ze bevestigt tegen de muur. Zorg ervoor dat de patronen van de vier hoeken op elkaar aansluiten.

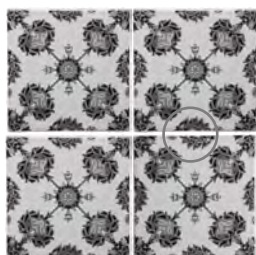

Dit is juist, want alle vier de tegels zijn naar boven gericht

Dit is onjuist, want de patronen aan de zijkan- ten sluiten niet op elkaar aan, aangezien de tegel rechtsonder ondersteboven is aangebracht

Dit is juist, want alle vier de tegels zijn naar boven gericht

Dit is onjuist, want de patronen aan de boven- en onderkant sluiten niet op elkaar aan, aangezien de tegel rechtsonder gekanteld is aangebracht

Dit is juist, want alle vier de tegels zijn naar boven gericht

Dit is onjuist, want de patronen aan de zijkan- ten sluiten niet op elkaar aan, aangezien de tegel rechtsonder ondersteboven is aangebracht

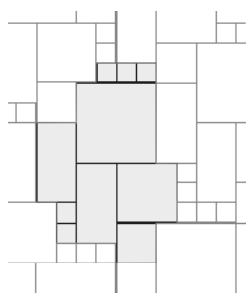

GLAZUUR

NB Het is onwaarschijnlijk dat de Residence Arcadian/Metropolitan Torus/Ogee mouldings op de bovenste rand geglaazuurd zijn. Dit betekent dat de basiskleur van de tegel zichtbaar is bovenop en we kunnen helaas niet garanderen dat dit niet het geval is.

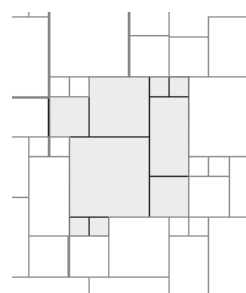

PATRONEN NEERLEGGEN VOOR RESIDENCE FOUNDRY METALLICS

Elke tegel van Foundry Metallic is met opzet uniek. Dit komt vooral tot uitdrukking in de kleuren van Roman Gold. Sommige kunnen lijnen, oneffen texturen en verschillende kleuren bevatten. Dit is het gevolg van chemische reacties tussen de verschillende glazuren en de tegel, en factoren als de positie in de oven als ze worden verhit. Dit betekent dat uw eindresultaat ook uniek en opmerkelijk zal zijn. Hieronder treft u enkele richtlijnen aan voor het combineren van verschillende afmetingen. Deze metallische tegels kunnen worden gemengd, zodat allerlei verschillende effecten kunnen worden gecreëerd... Laat uw fantasie de vrije loop!

PATTERN A

PATTERN B

FOTOGRAFIE

Als gevolg van variaties in studioverlichting en printkanten kunnen de in deze brochure afgebeelde kleuren enigszins afwijken van die van de daadwerkelijke tegels. Voordat u uw keuze maakt, is het altijd raadzaam om uw Winchester-leverancier te vragen om monsters.

AANSPRAKELIJKHEIDSBEPERKING

The Winchester Tile Company is niet aansprakelijk voor de verkeerde installatie van zijn tegels. In geval van claims met betrekking tot de tegels zelf is de aansprakelijkheid van Winchester Tile, voor zover dit wettelijk is toegestaan, beperkt tot het vervangen van het product of het vergoeden van de kosten van het product en is gevolgschade niet inbegrepen. Claims moeten binnen zeven werkdagen na ontvangst van de tegels worden ingediend. De tegels moeten worden geïnspecteerd voordat deze worden gezet. Claims worden niet behandeld nadat de tegels zijn gezet.

Tot de zetting behoort het aanvaarden van de kwaliteit, kleur, structuur, schakering en afmetingen van de tegels.

The Winchester Tile Company garandeert dat de tegels overeenkomen met hun omschrijving en geschikt zijn voor het beoogde gebruik. The Winchester Tile Company maakt geen andere uitdrukkelijke of impliciete garanties met betrekking tot de geschiktheid van de producten voor bepaalde installaties. We geven geen garanties, uitdrukkelijk of impliciet, ten aanzien van slijtagebestendigheid of onderhoudsmaatregelen.

We wijzen u erop dat het gebruik van bepaalde bijtende reinigingsmiddelen kan leiden tot een reactie van de tegels, waarvan het uiterlijk kan veranderen.

Важная информация

На глянцевой поверхности керамической плитки со временем могут образоваться трещины. Гарантии на такие случаи не предоставляются. Это особенность обработанной вручную плитки, что придает ей уникальный внешний вид.

Соответствие требованиям настенная плитка Winchester не предназначена для напольного покрытия или использования на открытом воздухе. Плитка предназначена только для внутренних стен. Мы не рекомендуем укладывать плитку Winchester на рабочую поверхность, поскольку возможно образование потертостей и царапин. Некоторые виды плитки не предназначены для влажных помещений (см. далее).

Коллекция	продукт	На открытом воздухе	Внутренние стены	Влажные помещения, например, душевые, очистные цеха, панели над умывальной раковиной	Сособые примечания

*Residence Foundry Metallics; Cosmopolitan Bastille, Lagoon, Tourmaline; Residence Arcadian Teal; Classic Collection Emerald Green, Lime Green, Marine Blue, Moonstone, Prussian Blue

Плитка этих оттенков покрыта глазурью на медной основе, поэтому возможно изменение цвета при контакте со слабыми кислотами, которые часто используются в быту, например, мыло с лимонным запахом, вино, апельсиновый сок и фрукты. Чтобы избежать изменения цвета, плитку следует мыть только чистой водой, а затем вытереть насухо. Плитку и лепнину этих оттенков рекомендуется использовать только в сухих помещениях, вдали от кухонных умывальных раковин и душевых. Если плитка по какой-либо причине намочена, следует незамедлительно промыть теплой водой, а затем вытереть насухо.

**Residence Foundry Metallic Roman Gold на глазурованной поверхности могут образоваться небольшие белые кристаллы. Этот процесс называется эфлюоресценцией, которая возникает в результате естественной химической реакции с поверхностью плитки. Мы не можем дать гарантий того, что этого не произойдет. При образовании эфлюоресценции следует обработать глазурованную поверхность плитки пятновыводителем, разведенным теплой водой в пропорции 1 к 4 (1 доля пятновыводителя к 4 долям теплой воды), оставить на 30 секунд, а затем полностью смыть водой и влажной тканью. Вытереть мягкой сухой тканью.

См. руководство по укладке на сайте www.winchestertiles.com для получения дополнительной информации.

По возможности, все плитки Winchester производятся в соответствии с Европейским стандартом EN14411.

Разные цвета и оттенки

Поверхность плитки коллекций Winchester Residence, Artisan и Classic Collection немного неровная и может отличаться определенным затемнением. Подобная заметная, при этом незначительная разница оттенков между плитками, лепниной и бордюрами означает, что все плитки по-своему индивидуальны, благодаря чему создается красивый глубокий эффект, что придает очарования покрытым такой плиткой помещениям. Кроме того, фон декоративной плитки и подходящей облицовочной плитки также может отличаться.

Перед тем, как выбрать плитку, рекомендуется обратиться к поставщику Winchester за образцами.

Перед укладкой плитки исключительно важно разложить ее на хорошо освещенной поверхности, чтобы убедиться, что все разные оттенки распределены равномерно. После укладки плитки компания не несет ответственности за любые проблемы, возникающие в связи с различными оттенками.

См. примечание далее касательно Foundry Metallics.

Глянцевая плитка и плитка с кракелюрами коллекции Artisan

Внимание: цвета глянцевой плитки и плитки с кракелюрами с одним и тем же наименованием могут незначительно отличаться.

Внимание: приведенные в качестве справочных иллюстрации могут не соответствовать фотографиям плитки в других разделах.

†Плитка с трещинами и кракелюрами

На глянцевой поверхности керамической плитки со временем могут образоваться трещины. Гарантии на такие случаи не предоставляются. Это особенность обработанной вручную плитки, что придает ей уникальный внешний вид.

на поверхности плитки из некоторых коллекций, в частности, Residence Cosmopolitan - Agapanthus, Amun, Bastille, Chestnut, Flint, Lagoon, Mint, Musk, Rioja, Tourmaline, Truffle и Classic Collection - Soft Yellow, Marine Blue и Deep Turquoise, со временем могут образоваться трещины.

на поверхности плитки и лепнины коллекций Residence Arcadian и Artisan Crackle специально создается эффект трещин (в результате определенного процесса глазурования), что придает ей красивый антикварный вид.

При использовании плитки с трещинами и кракелюрами во влажных помещениях плитку следует обработать пропиточным средством, чтобы предотвратить проникание влаги внутрь плитки, что может привести к ее выцветанию. Плитку с трещинами и кракелюрами также следует герметизировать через 90 дней после укладки, а затем вновь через год. Плитка с трещинами и кракелюрами будет в течение нескольких месяцев продолжать покрываться трещинами, и новые трещины соответственно не будут иметь герметизации. Подходящими пропиточными средствами считаются LTP2905 и Fila MP90. Чтобы облегчить удаление остатков затирки и предотвратить образование пигментных пятен плитку с трещинами и кракелюрами перед затиркой всегда следует герметизировать. *Смотрите ниже.*

Вы можете обратить внимание на то, что, непродолжительный период времени после укладки, плитка коллекций Residence Arcadian и Artisan Crackle издает «треск» по мере акклиматизации к температуре помещения. Это является естественной реакцией и именно такая особенность придает нашей продукции своеобразное очарование.

Чтобы увеличить эффект трещин, можно обработать плитку цветным затирочным материалом до ее укладки. Пигменты в затирочном материале начнут проникать в трещины, что придаст плитке антикварный вид. Как только затирочный материал высохнет, следует вытереть плитку, а затем с помощью пропиточного средства герметизировать ее, чтобы закрепить окраску. Отложить до полного высыхания, а затем укладывать как обычную плитку. После нанесения плитки и высыхания клеящего средства, можно завершить затирку и укладку. Рекомендуется протестировать одну плитку, чтобы достичь необходимого результата. При использовании цветных затирочных материалов следует быть особо осторожным и всегда сначала протестировать одну плитку.

Чистка

Промывать поверхности либо чистой водой либо нейтральным моющим средством (то есть не кислотным и не щелочным). Вытереть насухо и отполировать сухой щеткой.

Размеры

В данной брошюре указаны стандартные размеры; фактические размеры отдельной плитки могут отличаться от указанных в брошюре.

Приведенные в качестве справочных в брошюре иллюстрации могут не соответствовать фотографиям плитки в других разделах.

Укладка

Перед тем, как укладывать плитку, следует ознакомиться с полными инструкциями по укладке, включающими рекомендации по выбору затирочных и клеящих материалов, которые приведены в Руководстве по укладке Winchester на сайте www.winchestertiles.com.

Повторяющиеся узоры

Декоративная плитка Artisan

Просьба обратить внимание, что декоративная плитка изготавливается индивидуально, поэтому между плитками могут быть незначительные различия. Такие плитки могут не сходиться в точности, но общее впечатление будет потрясающим.

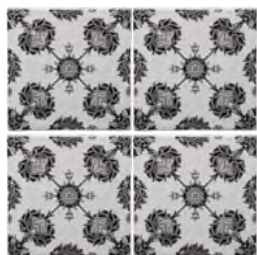

Конструкция декоративной плитки немного ассиметрична. Чтобы получился красивый узор, следует разложить плитку на отдельной поверхности до ее укладки, чтобы узоры на всех четырех углах плитки соответствовали друг другу.

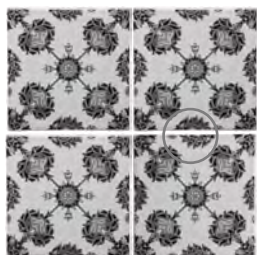

Верно – все 4 плитки расположены правильно

Неверно – узоры по бокам не сходятся, потому что плитка слева снизу находится в перевернутом положении

Верно – все 4 плитки расположены правильно

Неверно – узоры сверху и снизу не сходятся, потому что плитка слева снизу находится в перевернутом положении

Верно – все 4 плитки расположены правильно

Неверно – узоры по бокам не сходятся, потому что плитка слева снизу находится в перевернутом положении

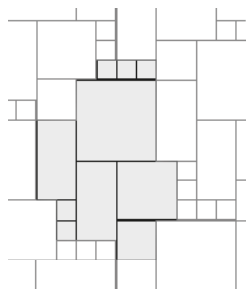

Глазурь Residence Arcadian/Metropolitan

Обратите внимание: Маловероятно, что поверхность вдоль верхнего края бордюров Torgus/Ogee будет покрыта глазурью, в связи с этим мы не даем гарантии что цвет неглазированной основы плитки не будет виден вдоль верхнего края бордюров.

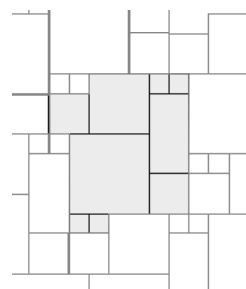

Конфигурация узоров для плитки Residence Foundry Metallics

Все плитки Foundry Metallics специально создаются разными. Подобные различия особенно заметны в цветовой палитре Roman Gold. Некоторые имеют рифленую поверхность, неравномерную текстуру или окраску. Это происходит в результате химической реакции между различными видами глазури и плиточной основы, а также зависит от таких факторов, как расположение в печи при обжиге. Именно благодаря этому создаваемые вами узоры будут уникальными и неповторимыми. Далее приведено несколько рекомендаций по комбинированию плитки различных размеров. Данную металлическую плитку можно комбинировать на свой вкус, чтобы создавать разные узоры – свободно экспериментируйте!

Фотографии

С учетом освещения в студии и типографической краски, цвет плитки на фотографиях, представленных в данной брошюре, может незначительно отличаться от фактического цвета плитки. Перед тем, как выбрать плитку, рекомендуется обратиться к поставщику Winchester за образцами.

Ограничение ответственности

Компания Winchester не несет ответственности за дефекты при установке ее продукции. При возникновении претензий относительно качества плитки, ответственность компании Winchester в установленных законом случаях ограничена либо заменой товара, либо возмещением его стоимости, и не распространяется на возмещение косвенных убытков. О претензиях необходимо сообщать в течение 7 рабочих дней после получения плитки. Плитку следует проверить до ее установки. После установки плитки претензии не принимаются. Просьба обратить внимание, что установка плитки означает отсутствие претензий к ее качеству, цвету, размерам, текстуре и оттенкам.

Компания Winchester гарантирует, что плитка соответствует ее описанию и пригодна для использования в надлежащих целях. Компания Winchester не предоставляет ни прямых, ни косвенных гарантий соответствия или пригодности товара для конкретных видов установки. Мы не обеспечиваем ни прямые, ни косвенные гарантии износоустойчивости. Просьба обратить внимание, что использование определенных моющих средств на кислотной основе может привести к химической реакции и изменению свойств плитки.
